## MAY BE RECORD VOTE IN ADAMS NEXT TUESDAY

With an all-time record number eligible to vote, thousands of Adams County residents will turn out Tuesday to make seven choices for candidates and, for many, decisions concerning merging of schools.

The county has 24,068 persons eligible to vote and 442 of those are already arranging to mail their absentee ballots in to the county election board.

But even with the absentee ballots subtracted from the total, an all-time record vote could be tallied when the county's voters Tuesday go to 16 firehalls, ten election houses, eight private homes, three schoolhouses, the courthouse, a pool room, a garage and the Hotel Gettysburg pressroom — the election places in the 44 districts into which the county is divided.

**7 A.M. TO 8 P.M.**  
The voting will begin at 7 o'clock Tuesday morning and end at 8 o'clock that evening. County election officials anticipate there will be fewer spoiled ballots this time than last because the choice is narrowed. In last year's general election upwards of 200 lost votes because they voted for more candidates than the number listed, or forgot to tear off the number attached to their ballots, or used ineligible writing tools.

Tuesday the big question nationally will be the Presidency and vice presidency. Adams County voters will have four choices: John F. Kennedy and Lyndon B. Johnson on the Democratic ticket; Richard M. Nixon and Henry Cabot Lodge on the Republican ticket; Eric Hass and George Cozzini on the Socialist Labor ticket and Farrell Dobbs and Myra Tanner Weiss on the Workers ticket.

Only two candidates are on the ballot for judge of the Superior Court; Gerald F. Flood, the Democrat, and Blair F. Gunther, the Republican.

**OTHER CONTESTS**  
Four candidates are listed for auditor general: Thomas Z. Minehart, Democrat; Robert F. Kent, Republican; George S. Taylor, Labor Socialist; and Arthur J. Felberbaum, Workers.

Four candidates are also listed for state treasurer, Grace M. Sloan, Democrat; Charles C. Smith, Republican; Herman A. Johansen, Socialist-Labor; and Morris Chertov, Workers.

Local interest centers on three offices: Congressman, for which incumbent James M. Quigley, Democrat, and George A. Goodling, Republican, are contending; state senator, for which William D. Shuman, Democrat, and D. Elmer Hawbaker, Republican, are candidates, and assemblyman, where the candidates are Dale

## DECORATIONS HERE; SEEKING \$2,500 IN GIFTS

With Gettysburg's Christmas decorations to go into use November 25, when Santa will arrive at 7 p.m. on Lincoln Square, the Christmas decorations committee of the Retail Merchants Association has sent letters to merchants asking donations toward the cost of the improved display.

Ralph K. Will, chairman of the committee, notes in a letter: "The decorations committee has again purchased the decorations and accessories to finish this program. They are here in Gettysburg ready to erect and our only problem now is to raise \$2,500 to write off the cost of these decorations which will last for years to come."

This year's decorations complete the partial display purchased last year to give the town a "new look" at Christmastime. In his letter Will observed: "Christmas is again approaching and we would like to finish the job we started last year in our Christmas decoration program. Even the small start of last year brought the finest compliments to our town, such as, and I quote, 'Gettysburg had the nicest decorations of any town for miles around.'"

**INVITES DONATIONS**  
"Last year's decorations were possible only because of the generous contributions of the business men and private citizens."

## Hammarckjold Charges Belgian Activities In Congo Hamper U.N.

UNITED NATIONS, N.Y. (AP)—Secretary-General Dag Hammarskjold charged today that large-scale Belgian activities in the Congo are hampering U.N. efforts to restore law and order.

In a voluminous report the General Assembly, Hammarskjold said large numbers of Belgian nationals were returning to the Congo and were exerting strong influence on the temporary administration set up by Col. Joseph Mobutu.

He blamed the Belgians for a growing hostile attitude on the part of the Mobutu government toward the U.N. Command. Many of the young commissioners in that government, he said, were constantly accompanied by Belgian advisers to whom they listened.

"NEAR COLLAPSE"  
One of the results, he added, was that "the chaotic administrative and economic situation reached the verge of collapse" before the U.N. Command stepped in firmly and took a more active hand.

"It may be concluded that a gradual but purposeful return is being staged by Belgian nationals, which has assumed serious significance in view of the key areas which they have penetrated in the public life of the country and the possible effect of their activities on all aspects of the U.N.C.'s (the U.N. Command) responsibilities," the secretary-general told the assembly.

"All too often these developments have coincided with anti-U.N. policies or feelings at the various points of impact."

## 2 BALTIMORE YOUTHS ADMIT LOCAL THEFTS

Two 16-year-old Baltimore youths have confessed, state police said today, to the burglary of Warren Buick Sales, the Dairy Queen, Snack Shack and Rudisill's service station here and the larceny of the license plates of Charles N. Krise, 28½ W. King St., Littlestown, early on the morning of October 25.

The two are in the Towson, Md., Baltimore County jail. They were turned over to Maryland authorities, in connection with theft of an attorney's car there, after they had been taken into custody by Virginia police following a chase at 120 miles an hour which ended in an accident on a curve.

As state police told the story, Carl P. Otter, Baltimore, a former resident of Littlestown, and Randolph H. Howdershell, on the afternoon of October 24 stole a car owned by Attorney Severn E. Lanier, Baltimore, at Towson. They then drove to the Littlestown area to visit friends in that section.

**TELL OF BURGLARIES**  
Early on the morning of October 25, the two youths told police at the substation at Towson Wednesday, they drove to a Hanover diner where they stole about \$15 worth of cigarettes, then went to the Warren Buick garage along the Lincoln Highway where they broke in and stole approximately \$10 from a soft drink vending machine, made a futile attempt to open a safe and stole two large screw drivers.

They then drove to the Dairy Queen establishment next door to the garage and using the screw drivers broke open a door. There they stole about \$2 in pennies and about \$25 from a cigarette machine.

Returning to the black convertible they had stolen they drove to the Snack Shack on York St. There they broke an unlocked cash drawer, stole \$6 in pennies, cigarettes, chewing gum, cakes and candy bars and caused about

## KEEFER SAYS MERGER IS "NEXT STOP"

Adams County joint school districts have worked "very successfully," County Superintendent of School C. P. Keefe said today, but when they were created the intent was to form a merged school district within a few years.

In a statement urging approval of the school merger votes that are to be decided November 8 in the Gettysburg and New Oxford joint school systems, Superintendent Keefe says, "Jointures have served their purpose and we are now ready for the next step, the merged operation."

He added: "A careful scrutiny of all the facts reveals no disadvantages in the merged school operation."

## CHANGE IS GRADUAL

Superintendent Keefe's statement follows: "A merger is the joining of two or more existing school districts into one district with a single board of education and a single unit of administration. Present school directors actually become the directors of the merged school district until the end of their respective terms. The transition from 35 or 37 directors of the present joint boards to the ultimate nine directors of the merged boards will take place gradually over a period of five years. Ultimately under the merged system there will be one director elected from each borough and/or township constituting the merged school district and two directors at large but not more than three whichever number is required to make the total number of directors an odd number. Directors will continue to be elected for a term

BANDITS FAIL TO LOOT BANK IN PITTSBURGH

PITTSBURGH (AP) — Three bandits, surprised by police during an attempted holdup of a branch of the Mellon Bank in nearby Braddock, bolted through a washroom window and escaped empty-handed today.

James Campbell, bank manager, said he pulled up to the bank at 8:30 a.m. Three Negroes, dressed in coveralls and painters hats, forced him at gunpoint into the bank.

Two women tellers, Mrs. Mary Bonga, 32, and Mrs. Anna Mae Jumba, 30, were already in the bank. The bandits waited until a third teller, Mrs. Agnes Etzel, 42, arrived and then tied the three women with clothes line.

At 9 a.m. the bank vault opened automatically but the bandits could not find any keys to open the cash drawers.

TELLER IS SUSPICIOUS

Meantime, Anthony Andolina, 43, a teller, arrived. Seeing the blinds drawn, he hurried across the street to a tavern and had the owner place a call to Campbell.

Campbell told the tavern owner the bank would open at 9:30 a.m. as usual. Andolina knew immediately something was wrong and alerted police.

Sgt. Ed Pavliko and another officer arrived at the bank just as the three bandits were attempting to flee.

The bandits scurried towards the back and Pavliko fired one shot, but missed. They scampered through a washroom window, climbed up a wall and fled across two roof tops.

Campbell said the bandits donned rubber Halloween masks after they forced him into the bank. The trio fled in a blue and white auto.

Their one-story house on the northeast side of Fairmont was crushed into splinters. What little of the walls remained after the explosion burned.

The home was equipped with a gas furnace. Police Chief George Caves said he thought the explosion was caused by gas.

MERGER QUESTIONS

About half the voters will also receive special ballots to express their opinion on proposed mergers in two of the county's jointures, Gettysburg, Cumberland, Straban, Franklin, Freedom, Highland and Mount Joy voters will be asked in a lengthy ballot whether they wish to form a merger of their school system. The ballot is long because two of the districts, Straban and Mount Joy Townships, will be divided if the merger goes through and the ballot lists the dividing line.

The others to vote on a merger will be the residents of Abbottstown, New Oxford, Berwick, Hamilton, Oxford, Tyrone, Mt. Pleasant and Straban on the question of whether the Lower Adams Jointure should become a merger. Again the ballot is long because only part of Straban and only part of Mt. Pleasant will be in that merger if it is effected and thus the dividing lines are spelled out on the ballots as required by law.

Thus the voters of all those sections will have eight choices to make, seven candidates and one merger question, with one exception. The exception is Straban where the voters will get three ballots, one on which to choose the seven candidates for office and two to make decisions on school mergers.

## Political Complexion Of Next Pa. Legislature Is Big Election Imponderable

By FRED WALTERS  
HARRISBURG (AP)—The political complexion of the 1961 Legislature remains one of the biggest imponderables in the surging election campaign in Pennsylvania.

Pulse-takers have been more reluctant to make a prediction about the outcome of the legislative contests than about the battle for the state's 32 electoral votes.

The accounting after the polls close Nov. 8 could produce many paradoxes, both parties agree.

### SERIES OF INTERVIEWS

These were the sentiments taken in a series of interviews among people in each party that are close to the legislative races:

Democrats feel fairly confident they can win the state's presidential electors but are uncertain about winning the Legislature.

Republicans, less certain about the presidential outcome, feel a little more optimistic about the Legislature.

The shortest odds would be on the Democrats winning the GOP-controlled Senate and the Republicans taking over the Democratic-controlled House.

### OVERSHADOWED NOW

Although the struggle for legislative representation goes on almost unnoticed in the shadow of the presidential campaign, it is in the counties that the two biggest issues of the campaign will find their sharpest expression when the votes are counted and where they will have a direct bearing on the legislative outcome.

These issues are economics and religion. The legislative returns are expected by both sides to reflect these issues more pointedly than the statewide returns.

Going into the election, Democrats held 108 House seats; Republicans 102. Republicans commanded 25 Senate seats, with three more GOP seats vacated by death or resignation; the Democrats 22.

### THE GENERAL PICTURE

This was the general picture: In the Senate, 26 of the 50 seats will be filled: 18 Republican and only eight Democratic. Of the Republican seats, three are considered extremely doubtful and three others close. Only one Democratic seat is considered doubtful, although two others could fall in a Republican sweep of the state.

In the House, there are roughly 36 seats for which no sure claim can be made. Democrats now have 19 of these seats; Republicans 17. There are about 13 Democratic seats and eight GOP seats

very doubtful.

### SENATE PROSPECTS

This was the rundown on the contests:

#### Senate:

The doubtful Democratic district is the 11th (Berks County), where the religious issue could swing this county over to the Republicans. Sen. Frank W. Ruth, assistant Democratic floor leader, did not seek re-election and Gus Yatron of Reading, an ice cream salesman who is presently a House member, won a primary contest to succeed him. His opponent is Archibald R. Judd of Hamburg.

Republican Sen. Frank Koprivier Jr. of Duquesne faces a stiff challenge in the 45th District in Allegheny County. This went Democratic in 1948 and swung narrowly Republican in 1952. Koprivier rode a more comfortable margin in 1956 when President Eisenhower carried the county. Leonard C. Staley, also of Duquesne, is his opponent.

A Republican seat also is at stake in normally Democratic Cambria County — the 35th District. John J. Haluska of Patton, Democrat who was upset four years ago, is seeking to return to the Senate and is opposed by Walter E. Rose, former Johnstown mayor. The incumbent, Ernest F. Walker, did not seek re-election.

#### DOUBTFUL ONE

The other doubtful Republican seat is in the 49th District, Erie County, where Republican W. W. Waterhouse of Corry is running against Democrat William G. Sessler of Erie for the seat now held by retiring Sen. C. Arthur Blass.

Other Republican seats considered close are the 27th (Snyder-Union-Northumberland counties) where Democrats hope a GOP split over incumbent Sen. Samuel B. Wolfe's decision in the primary campaign to seek re-election will work to their advantage; the 29th (Schuylkill County), where pro-Catholic sentiment and economic conditions, Democrats feel, may upset Sen. Paul L. Wagner of Tamaqua, and the 41st (Armstrong-Butler), held by Sen. Albert R. Pechan, assistant GOP floor leader, where there reportedly is some GOP discontent in Butler County over Pechan's decision to seek a third straight term. (He is Armstrong County GOP chairman.)

Democrats, in turn, could lose their marginal districts in Luzerne County (Sen. Martin L. Murray) and Beaver-Lawrence (Sen. Carl

## SAYS RIVALS ABOUT EVEN ON CROWDS

EDITOR'S NOTE: Relman Morin has been traveling with both presidential candidates. Here he sizes up the biggest receptions accorded both — in New York City and the suburbs.

By RELMAN MORIN

NEW YORK (AP)—Vice President Richard M. Nixon's tour of Democratic New York City and Republican suburbs indicated today that he and Sen. John F. Kennedy are running neck and neck. Not necessarily in terms of votes for president. There are conflicting reports on that.

But in terms of the eight principal species of people who make up the crowds turning out for Kennedy and Nixon, the two candidates appear to be about even.

### MORE YOUNG WOMEN

Kennedy has an edge among the jumpers, the shriekers and the squealers—mainly teen-agers and excitable young women.

Nixon seems to be ahead with the that's-righters — the person who quietly murmurs "that's right" when either candidate makes a point in a speech.

But there is little to choose between them among the touchers (hand-shakers and back-slappers), the repeaters (who run around the candidate's car to shake hands twice), and the runners (who keep chasing the car as it gathers speed.)

### ALL TYPES FIRST

New York crowds were no different from those in Aurora, San Diego or Mount Clemens.

All types turned out in huge numbers for Nixon Wednesday, just as they did for Kennedy when he ploughed through the ticket-tape and clouds of colored confetti in the big town last week.

The total turnout seemed larger for Nixon than the one for Kennedy. If so, it may have been because of President Eisenhower, Mrs. Nixon, vice-presidential candidate Henry Cabot Lodge, and Mrs. Lodge, all riding with Nixon's motorcade.

But who can say, once the multitude passes the million-plus point?

### SOME UNFRIENDLY ONES

Nixon's biggest crowds massed in and around Wall Street and at Herald Square, where he spoke. Surging masses of people backed up for blocks on all sides. For Kennedy, the identical pattern appeared in and around the garment district.

Both raised wild waves of applause when they spoke. Both heard boos from small knots of people.

Both saw unfriendly placards held high—"This is no time for on-the-job-training in the White House." "We like Ike but we're backing Jack."

When poaching fish make sure that the water never comes to a boil or the delicate meat will toughen.

L. Miller if the Republicans sweep the state.

### OUTLOOK IN HOUSE

In the House, these are the most doubtful seats:

Republicans—Allegheny 4th and 16th, Luzerne 1st and 7th, Philadelphia 15th (2) and 22nd, and Schuylkill 1st.

Democrats—Berks 3rd and 4th; Clearfield (2); Fulton, Monroe, Northampton 2nd (3); Lycoming 2nd; Lehigh 1st and York 2nd and 3rd.

Less doubtful seats include: Republicans—Delaware 1st, Erie 3rd (1 of 2 seats), Centre, Lackawanna 5th, Lehigh 1st (2 seats now split between parties), Lycoming 1st, Philadelphia 14th, Schuylkill 2nd (2).

Democrats—Allegheny 12th, Luzerne 5th and 6th, Northumberland 1st, Westmoreland 1st and Carbon.

Hornberger, Richard Selby, Mrs. William T. Gingrow and Marvin F. Breighner. The posters are being displayed in the business section of the community.

Sally Bankert introduced the topic for discussion at the meeting of the Junior High Luther League of St. Paul's Lutheran Church on Sunday evening. Martha Ritter read passages from the Bible relating to the topic. The members then divided into three groups for the topic discussion. The young people were then taken to the Robert Gitt farm, near town, from where they went on a hayride. Transportation to the farm was provided by the Rev. Lawrence H. Roller, pastor; John Kump, Robert Cluck and Mrs. C. Aaron Rohrbach. The group returned to the church for refreshments and dancing. The League will meet again on Sunday at 6:30 p.m.

BERKELEY, Calif. (AP)—Steve Bates, California halfback involved in one of the most controversial plays of the 1959 football season, had nothing but sympathy today for Mike McKeever, Southern California guard who is recuperating from an operation this week for a blood clot on the brain.

Bates and his 1959 head coach, Pete Elliott, were bitter last year after McKeever landed on Bates and smashed in the side of his face.

## TWENTY YEARS AGO

Jailed 1 To 3 Years On Manslaughter Charge: Harry Y. Painter, Cumberland, Maryland, driver of a car which figured in an accident October 26 at Hilltown in which Evers Knippie, Orntanna, was fatally injured, was sentenced to serve from one to three years in jail on an involuntary manslaughter charge in Adams county court this morning.

2 County Draft Boards To Mail Questionnaires: Both draft boards in Adams county have completed their lists of registrants in the order in which the men's serial numbers were drawn at Washington last week and both boards may have questionnaires in the mails by Tuesday to the first 50 men on their lists.

Members of Draft Board No. 1 have announced that permanent quarters for their district headquarters have been selected in the Theodore Warner building, formerly occupied by the Hulick dry goods store, in center square in New Oxford. Workmen were busy there today removing counters and placing partitions so that the board may occupy the rooms by Thursday.

Judge To Be Available To Decide Vote Questions: Usual arrangements have been made by Judge W. C. Sheely to handle court sessions in Adams and Fulton counties on election day when, under the election laws of 1837, court must be in session from 7 a.m. until 10 p.m. in both counties.

Alpine Troops Push 7 Miles Into Albania: Fighting over snow-blanketed mountains, Greek Alpine troops were reported to have driven seven miles into Italian held Albania today, ringing the fascist supply base at Koritza and capturing 1,200 Italian prisoners.

In further support of the 8-day-old Greek defense, the British were reported preparing to send three army divisions, about 45,000 troops, to combat the Italian invasion.

Plane Carrying 10 Missing Near Salt Lake City: Salt Lake City—An airliner carrying seven passengers and a crew of three vanished today after arriving over the Salt Lake airport at 4:40 a.m.

The United Airlines plane left San Francisco at 10:30 p.m. (M.S.T.) last night and was due in Salt Lake City at 3:39 a.m. The big plane arrived over the airport at 4:40 a.m., but was unable to land because of a heavy snowstorm.

Couple Visiting Here When Blast Wrecks York Home: An explosion rocked Hillcroft village south of York at 9:30 o'clock Sunday morning, completely destroying one home and all its furnishings and slightly damaging a next door residence.

The \$9,500 home of Mr. and Mrs. Clyde M. Sterner, Pine Lane, was torn asunder by the blast which Fire Chief John S. Eby, of Spring Garden township, York county, blamed on an accumulation of escaping illuminating gas being ignited, probably by a spark from an oil burner.

Conference Of Lutherans Set For Nov. 18, 19: The third annual convention of the West Pennsylvania conference of the Central of the United Lutheran church in America will assemble for its general session in St. John's Evangelical Lutheran Church, Boiling Springs, on Monday and Tuesday, November 18 and 19.

## Today's Talk

**ON "BORROWED" TIME**  
I hear people tell of "borrowed time." I do not like it. It does not stir me with inspired thoughts. If time is just borrowed, how is it to be returned—for all things borrowed have to be returned. The late Ben Hur Lampman once wrote "the trouble with life is that it takes all our time." That would not matter if you could borrow this thing called time, and life . . . to live out our days, no matter how spent, if we could but leave a trail of hope and faith, behind!

It's the sum of our days that should be appraised and distributed far and away. We can, in some measure, return those sunny hours that give us a life, and inspire us on and on, for life is kind to most of us, and behind the shadows is the light to guide us on our upward way.

Every experience in life may be significant to the one who lives it. Nothing is so valuable as a clear path ahead.

We ought to be guided by a necklace of visions. All time then would trot along confidently—and without fear!

Tomorrow Mr. Adams will talk on the subject: "Dead Weight" Projected, 1960, by The George Matthews Adams Service

## Just Folks

**A SONG**  
When skies are o'er cast with dark clouds of gloom  
And I pine for a sight of the blue;  
When worry slips in like a thief to my room,  
It is then that my heart turns to you.  
It is then that my heart turns to you, little girl,  
For you kiss all my troubles away;  
And grief and despair float away on the air,  
And I'm glad at the close of the day.

When friends that I loved turn away from me—cold,  
The friends that I thought would prove true;  
And I find the rings false which I thought to be gold,  
It is then that my heart turns to you.  
It is then that my heart turns to you, little girl,  
For you love all my troubles away;  
But by sun, high or low, only love do you show,  
And I'm glad at the close of the day.

## Calls For End To Pornographic Trash

**MOUNT POCONO, Pa. (AP)—**A Washington church official said Wednesday night there is a "shocking amount" of "trash literature available to American youth which is giving a false set of values in life."

Neal C. Wilson, secretary of the Religious Department of the Columbia Union Conference of Seventh-Day Adventists, called for a "nation-wide program which would eliminate pornographic and other trash literature from the newsstands of America."

Wilson delivered the keynote address at the opening session of the annual four-day publishing convention of the Columbia Union.

Wilson suggested as good substitutes books on nature, animals, travel, Bible stories, history and geography.

Delegates attending the convention include publishing officials of the church from Pennsylvania, New Jersey, Ohio, Maryland, Delaware.

Politics  
REPUBLICAN-DEMOCRAT

By MARVIN L. ARROWSMITH

**NEW YORK (AP)—**Vice President Richard M. Nixon travels into the South today, jubilantly asserting that President Eisenhower's New York area campaign in his behalf heralds a Republican victory in next Tuesday's election.

Climaxing a day of vigorous plugging for the Nixon-Lodge ticket, Eisenhower Wednesday night touched off tumultuous acclaim in championing the GOP candidates and in hitting at Sen. John F. Kennedy at a party rally in Manhattan's Coliseum.

So tremendous was the acclaim, so many times was Eisenhower interrupted by the wildly cheering crowd that Nixon got to speak only a couple of minutes before the rally proceedings—carried nationwide on television—went off the air.

**BRIGHTEST DAY**  
But the vice president smilingly told his coast-to-coast audience: "I can only say that I am always glad to give up my time for the President of the United States, Dwight D. Eisenhower."

Nixon called his day in New York the brightest of the Republican campaign.

"It has started us to a great victory in New York and victory in the nation. Now let's go," he said.

**FIRST TARGET TODAY**  
Nixon thus underscored the importance he attaches to Eisenhower's help in the home-state drive to defeat Kennedy. The Nixon forces are hoping the help will have nationwide impact. But they are especially hopeful the President's great popularity will win for the ticket the richest of all plums—New York's 45 electoral votes.

Nixon's first target today is the eight electoral votes of South Carolina, usually a Democratic stronghold but this year a state the Republicans believe they have a good chance to carry.

After a mid-day talk at Columbia, S. C., Nixon flies to Texas for speeches in San Antonio and Houston.

**ATTACKS KENNEDY**  
Before leaving New York, Nixon cut loose again at Kennedy and his vice presidential running mate Sen. Lyndon B. Johnson. Nixon said in a statement that Kennedy and Johnson disagree on a multitude of issues.

The vice president said such disagreement was reflected 264 times on roll call votes in the Senate.

"Together they stand on both sides of almost everything, and so together they stand for nothing," Nixon said. "Their main common denominator is an amateur standing in world affairs."

**OVERFLOW CROWD**  
In his speech Wednesday night, Eisenhower took after Kennedy before an overflow audience of about 10,000 in the Coliseum. Without naming the Democratic nominee, the President said there is "only one individual who is bewailing America's strength."

Kennedy has been contending throughout the campaign that U.S. prestige abroad has deteriorated during the years of the Eisenhower administration.

By GEOFFREY GOULD

**EN ROUTE WITH KENNEDY**  
(AP)—Sen. John F. Kennedy reiterated Wednesday night his criticism of the way the United States selects its representatives for foreign service and amplified on his proposed "peace corps" of smart young men encouraged to join the diplomatic service.

Kennedy said the young men qualified for such service would "serve their country in this fashion for three years as an alternative to peacetime selective service."

He emphasized that word "qualified." The "peace corps" would not be an easy alternative to military service, he stressed. The Democratic presidential candidate also declared it would be a volunteer corps.

**ATTACKS DIPLOMATS**  
Speaking at San Francisco's huge Cow Palace to a spill-over crowd of 30,000 which screamed its approval in political convention style, Kennedy said that too often American ambassadors are "ill-chosen, ill-equipped and ill-briefed."

"Men who do not even know how to pronounce the name of the chief of state to whom they are accredited—as we have seen two years ago in the case of the ambassador to Ceylon—must match wits with Communist emissaries long trained in the ways of dialects of that nation," Kennedy said.

"They can only be countered by Americans equally skilled and equally dedicated—and if I am elected, I ask you to help me find those Americans."

**GAVIN'S IDEA**  
A principal originator of the "peace corps" idea was Lt. Gen. James M. Gavin, former chief of the Army's Research and Development Command, who retired several years ago and wrote a book blasting administration defense policies.

Kennedy said "the key arm of our foreign policy is our ambassadorial and foreign service." He has made foreign policy a salient feature of his campaign.

Kennedy hops eastward today in a final burst of frenetic campaigning, starting at Phoenix, Ariz., where he flew late Wednesday night from San Francisco. He'll stop at Albuquerque, N.M., Amarillo and Wichita Falls, Tex., and Oklahoma City, before flying to Washington.

**MOCKING TONE**  
In a talk prepared for his Albuquerque stop, Kennedy again adopted his mocking tone toward his Republican opponent, Vice President Richard M. Nixon.

## Fails In Attempt To Throw Case Out

**EBENSBURG, Pa. (AP)—**Attorneys for Frank Salvaggio, owner of 161 pinball machines seized in a raid at Gallitzin, has failed to have the Commonwealth's case thrown out at a hearing on a state request to destroy the machines.

A panel of three Cambria County judges Wednesday turned down the motion which said the state's case lacked enough evidence.

The machines were seized at a warehouse, also owned by Salvaggio, a former Gallitzin councilman.

The state contends the machines come under the state law outlawing multiple coin pinball machines. The defense said the machines had been stored away in a dismantled condition and were not being used for unlawful purposes when seized.

The hearing was recessed until Friday.

## Artist And Hermit Camping Out In Cold

**MEMPHIS, Tenn. (AP)—**Artist Jay Kuyper and writer-poet Charles Elmore have bought a cave for \$150 and plan to turn hermits this winter.

Kuyper, 24, who came here from Cincinnati, plans to spend the cold months painting and sculpting.

Elmore, 22, plans to devote his time to a full-length book.

The pair said they will take about \$50 worth of food with them and expressed the hope they will supplement their diet by shooting game.

The vice president had charged Kennedy with a "bare-faced lie" by saying Republicans had always opposed Social Security.

Kennedy replied: "Having seen him close-up (and made-up) for our television debates, I would never accuse Mr. Nixon of being bare-faced. But I think the American people next Tuesday can best determine who is lying and who is telling the truth."

Then Kennedy cited a long record, starting in 1935 when he said 90 per cent of Republicans in Congress voted against the first Social Security bill. He carried it to 1960, when he said only one Senate Republican voted for the Democratic plan to put medical care for the aged under the Social Security system.

"This is not what Mr. Nixon calls 'a vicious rumor'—this is the Republican record. He is stuck with it in this election. And no amount of personal abuse can cover up the reactionary history of the party he truly represents," Kennedy said.

## VERN LAW WINS PITCHER'S CY YOUNG AWARD

**BOSTON (AP)—**Vern Law, the tall, calm deacon of the Pittsburgh Pirates, today won the Cy Young Memorial Award as the outstanding pitcher in the major leagues in 1960.

Law polled 3 of the 14 ballots cast by the selection committee of the Baseball Writers Association of America.

Milwaukee's great left-hander, Warren Spahn, the 1957 winner, got four votes and Ernie Borgio and Lindy McDaniel, both of the St. Louis Cardinals, one each. It was the first time in the five-year history of the award that an American League pitcher failed to gain a vote.

**MORMON ELDER**  
The selection committee is composed of eight writers from each major league. Hy Hurwitz, secretary of the writers group, who announced the result of the poll, said one writer from each league abstained from voting.

Law, a Mormon elder and nicknamed "The Deacon" by his teammates, had a 20-9 record with a 3.08 earned run average for the season. He worked 18 complete games in 35 appearances in leading the Bucs to the National League pennant and contributed two more in their World Series triumph over the New York Yankees. The balloting is based only on regular season performance.

## Won't Reveal Oil Secrets To Soviets

**BRADFORD, Pa. (AP)—**Two oil executives say no secrets will be divulged to nine Russian oil experts when they tour oil fields near here next Tuesday.

Mayor John A. Still of Bradford has lodged a protest against the visit with the U. S. State Dept., asking why the department "had the audacity to exchange this type of knowhow with people who have no moral principles."

In replying to the mayor's statement, J. Paul Jones, president of the Pennsylvania Grade Crude Oil Association, said A. J. Saxe, a vice president of South Penn Oil Co., issued a joint statement Wednesday.

"The statement said, 'It is unfortunate that Mayor Still did not contact the oil industry before he entered the oil field protest. . . . Nothing is being disclosed that has not already been published in trade periodicals, technical papers and the like. The American oil industry is certain that it is way ahead on the deal. . . .'"

## Booklet Gives Tips To Parents About Homework

**WASHINGTON—**With a million more youngsters in elementary grades this year than there were last, there are nearly that many more mothers and dads scratching their heads and wondering how—and if—parents fit into the school picture.

The answer, according to the National Education Association, is that parents rate top billing. Their task: to help the school child pursue learning as the "most important, most exacting, most exciting task in the world."

The "how" is spelled out in a new booklet "How to Help Your Child Learn," published by the Department of Elementary School Principals and the National School Public Relations Association, two departments of NEA.

**HELPS FOR PARENTS**  
The booklet discusses subjects the youngster is expected to master as he travels from kindergarten through sixth grade—reading, spelling, handwriting, arithmetic, science, social studies, art and music, foreign language (in some schools) and health and physical education.

Then it lists specific things parents can do at home to reinforce the school's teaching of these subjects.

To spark arithmetic skills, for example, the booklet suggests fun-games to help develop the child's quantitative reasoning, as well as everyday ways to get youngsters to think of things in numerical terms.

It admonishes mothers not to be squeamish about small-boy collections of rocks or crawling things—they can spur his interest in science and so can carefully-selected science-related gifts at birthday time or Christmas.

**FAMILY TRIPS HELP**  
Family trips can help the child broaden his understanding and interest in social studies, the booklet says, especially when parents encourage youngsters to make "travel diaries" and to collect samples of native products and plants.

As for spelling the booklet views babytalk dimly as "no help to Suzy in the first grade" and suggests some ways of adventuring-with-words that will step up spelling skills.

There are similar tips in the other subject fields such as reading and handwriting, along with suggestions for parents on coping with homework and report cards.

## BOOKLET USED HERE

Three other books also can help parents of school-age children. They are "Happy Journey," designed to prepare a child for school; "Janie Learns to Read," for parents whose child will soon learn to read, and "Sailing Into Reading," which explains how a child learns to read in the elementary grades.

The parent of every child who registers for first grade in Gettysburg is given a copy of the booklet "Happy Journey."

Each of the four books is 50 cents. Copies may be ordered from the NEA Department of Elementary School Principals, 1201 Sixteenth St., N.W., Washington 6, D. C.

## HAMEY NEXT IN LINE FOR JOB

**NEW YORK (AP)—**Roy Hamer, with 35 years of baseball front-office service to recommend him, was expected to be named today to succeed George Weiss as general manager of the New York Yankees.

Weiss resigned Wednesday after 29 years in the Yankee organization, the last 13 years as general manager. He will serve out the last five years of his seven-year contract in an advisory position of "consultant." He was 66 last June.

**HAVE TRADE SAY**  
Hamer, 58, was Weiss' assistant for the past two years. He is in his second term with the Yankees. He joined them back in 1934 as business manager of their Binghamton farm club. He left the Yankees to take over the American Association presidency in 1946, but returned 13 years later. In between, he served as general manager of the Pittsburgh Pirates and the Philadelphia Phillies.

Hamer will be in charge of personnel and have the final say on all trades. In fact, during the past few weeks, he has been engaged actively in trade negotiations with other clubs.

## Canners Host Bolts In Top Game Friday; GHS Ends Season At Carlisle

Standing head and shoulders above the other scholastic football games in the area Friday night will be the clash between Biglerville and Littlestown at Biglerville at 8 o'clock, a game which is sure to attract a huge crowd.

Gettysburg High winds up a dismal season against unbeaten Carlisle on the latter's field Friday night.

Bermudian Springs, idle for two weeks, hosts Carson Long at York Springs Saturday at 2 p.m.

Delone Catholic has an open date, resuming play against Dieruff High at Allentown Friday evening, November 11.

### Gettysburg At Carlisle

A rough ending to one of the roughest seasons in Warrior history is in prospect Friday night when Gettysburg High, winless in eight games, meets undefeated and untied Carlisle (7-0) at Carlisle in a South Penn League game.

Ken Miller's Thundering Herd is currently leading the South Penn Circuit and has established itself as one of the best outfits in Central Pennsylvania. Its stature greatly improved last week when it walloped the highly-regarded Delone outfit 47-7.

Carlisle has brushed aside Cedar Cliff, Middletown, Hershey, Central Dauphin, Waynesboro, Hanover and Delone in compiling its perfect log.

For the most part Carlisle is without a particular star as all have turned in solid, hard-hitting performances. The team possesses all the prerequisites for championship honors and it is doubtful if it will suffer a let-down despite the poor record of the Warriors.

Among the lettermen from last year on the squad are Myrtle Shenk and John Carns, ends; Gene Miller and Clark Sherman, tackles; Dick Evelhoch, guard; Jack Brougner, Gary Heishman, Jim Boomer and Art Enck, backs. Another veteran back, Sammy Padjen, was lost several weeks ago due to a fracture.

Coach Don Young and his squad are hopeful of a good showing against their old rivals. The squad is in good physical condition and its spirit apparently undaunted by a succession of reverses.

Ten senior members of the squad will be in uniform for the last time.

They include: Roger Ecker and Don Waddell, ends; Robert Bream and Pat Flinn, tackles; William Kint, guard; Eugene Miller, quarterback; Ronald Mickle, Ed Gastley and Jack Bucher, halfbacks, and Robert Dean, fullback.

Friday's clash marks the 38th meeting between the schools. Carlisle lead in victories 19-15 while three games ended in ties. Last year Carlisle won 27-6.

### Littlestown at Biglerville

This game could be tabbed as one for the public high championship of Adams County and when the teams lock horns their style of battle is expected to be that of fighting for a championship.

The game brings together teams with the best football records in the county. Invading Littlestown is undefeated but tied with a 7-0-1 mark while Biglerville is 7-1.

Records mean nothing when these rivals get together and the to be a real thriller, one which is certain to attract an overflow crowd to Musselman Field at Biglerville.

Jack Emanuel, who has enjoyed huge success since becoming coach of the Cannors four years ago, has never beaten Littlestown. He received defeating news Tuesday when he learned that Dennis Little, 200-pound tackle, will miss Friday's game due to a fractured bone in his right hand suffered last Friday in the Camp Hill scrap. In addition, Ronnie Wagner, 180, fullback, received a brain concussion in a fall from a truck on Saturday and at the best will be relegated to part-time duty.

### 11 WILL ROW OUT

Little and Wagner are two of 11 seniors on the squad Others who will complete their scholastic careers Friday are Ken Fetters, Fred Hartzel, Keith Martin, Donald Wright, Richard Graham, Richard Boyer, Terry Thomas, Bruce Parker and John Alexander.

While Biglerville will be terminating its season with the game, Littlestown still has its big clash with South Western at Littlestown November 11 for the Laurel Conference championship and the Bolt coaches are fearful their charges may be looking forward too much to that game.

Littlestown, defending Laurel title, is at present on top in the Laurel standing. The Bolts, with but four lettermen from last year, had not expected to be title contenders but the squad progressed brilliantly with each game. Only a 14-14 deadlock with West York mars their record.

In Bill Bowers, Coach Ron Lawhead has the top point producer in the area. Bowers, 159-pound senior back, has racked up a total of 20 touchdowns in eight games and most of his scoring plays have come on long break-away jaunts. Stopping him will be one of the prime objectives of Biglerville.

The teams have played but one mutual opponent and both came off with identical victories, 6-0 de-

## Mountaineers In Big Crucial Game

MORGANTOWN, W.Va. (AP)—West Virginia Coach Gene Corum is undecided about his starting halfbacks for the Saturday home game with Boston University.

This is a most crucial game for the Mountaineers. They haven't tasted victory in their last 12 games and they must win the Boston encounter to have a fighting chance of avoiding the worst season in WVU history.

The worst record of two victories and eight losses was posted by the 1950 team coached by Art Pappy Lewis in his first year. Corum's first year record is six losses and a tie.

WVU observers give the Mountaineers a chance in two of their final three games — Boston and George Washington.

## DEVINE HAPPY ABOUT NUMBER 2 TIGER RATING

COLUMBIA, Mo. (AP)—"Let's see now. . . Monday we didn't see La Rose, Calhoun, West, G. Smith and Brossart until a few minutes before quitting time. Wednesday we excused Garvis and Henley and five other fellows from our weekly night squad meeting."

That's Missouri Football Coach Dan Devine's reply to the question:

"How are things coming for the Colorado game, coach?"

PLAY SATURDAY

Missouri and Colorado, tied for the Big Eight lead on 4-0 records, play in Columbia Saturday.

Devine's Tigers are undefeated and untied in seven games. They rank No. 2 in the Associated Press top ten teams.

"It's nice being rated so high," Devine explained, "and I feel the kids deserve it. But we aren't out of the wilderness yet. We've got to play Colorado, Oklahoma and Kansas and it's still a tossup for the title."

DEVINE, 35, looks more like a university professor than a football coach. He's quiet but firm. He explained the "excuses" went to end Danny La Rose, tackle Rockne Calhoun, back Mel West and end Gordon Smith. They had to do practice teaching at a local school.

The regular guards, Paul Garvis and Paul Henley, are chemical engineering students and "have a test tomorrow." Fred Brossart, ace defensive back, is a premed student and needed time for study.

Devine graduated from Duluth (Minn.) State and learned the multiple offense under Biggie Munn and Duffy Daugherty as assistant coach at Michigan State. In three seasons at Arizona State University and two seasons and seven games at Missouri his teams have won 45 games, lost 12 and tied 2.

## EAGLES COACH LOOKING FOR BRIGHT FINISH

By GEORGE ESPER

PHILADELPHIA (AP)—It would be a storybook ending for Coach Buck Shaw should his Philadelphia Eagles defeat Pittsburgh here Sunday and go on to win the Eastern Conference title in the National Football League.

Shaw, 61, will retire after this season and in 11 previous years of coaching professional football his clubs never have won a title.

Shaw, who coached the San Francisco 49ers for 9 years before joining the Eagles in 1958, has guided the Philadelphia club into a tie for first place with Cleveland in the Eastern Conference. The clubs are 4-1.

ONLY CONCERN

Right now his only concern is beating the always tough Steelers who he says are a much better team than their 2-3-1 record indicates.

"They've got a good, solid team," Shaw said today. "They've had a lot of tough luck and injuries. Their defensive forward wall and linebackers are equal to any in the league."

Shaw said the contest shapes up as a passing duel between quarterbacks Norm Van Brocklin of the Eagles and Bobby Layne of the Steelers, who has been hampered by a stowed thumb.

LITTLE STRONGER

He said the Steelers "probably are a little stronger running than we are and they have a stronger defensive line and linebackers."

Shaw rated the two teams about equal.

Shaw agreed with Steelers Coach Buddy Parker that the Pittsburgh pass defense has had its share of troubles. "They've given up quite a few yards," Shaw said.

ROUGH LINE

Van Brocklin said the Steelers have the "roughest defensive line" in the league and that he wouldn't be a bit surprised if they put the rush on him.

Van Brocklin also agreed with Shaw that the Steelers have a tougher team than their record indicates. He said he felt the Eagles could beat them if Philadelphia plays as well as it did against Cleveland two weeks ago in a 31-29 victory.

EXPENSIVE MISTAKE

TULSA, Okla. (AP)—Tulsa County treasurer W. E. McIntosh says he received one \$40 check when the tax payment due was only 40 cents and another \$12 check when 12 cents was due. He returned both checks.

HILLSBORO, Ill. (AP)—It's difficult to make a complaint to the Hillsboro Telephone Co. The new telephone directory lists the wrong number for the complaint department. Callers receive a busy signal.

ANN ARBOR, Mich. (AP)—"It's not up to the coaches. The players alone can decide which is the better team."

That's Bump Elliott's retort to anyone who tries to visualize Saturday's Michigan-Illinois game as a battle of coaching wits between himself and his brother, Pete.

"I'm not concerned about Pete," said Bump the Wolverine coach. "It's his team I'm worrying about."

## Faces Bullets

Bill Kolb, 6-0, 205-pound halfback, will spearhead the Hofstra College attack when the Flying Dutchmen oppose the Gettysburg College gridders Saturday evening at 9:05 on the Sheppard-Myers Field, Hanover. Kolb was the leading ground gainer for Hofstra last year and this year is again the pace-setter. He has tremendous speed and power. The game is being sponsored by the Hanover American Legion for the benefit of its athletic fund. Tickets may be purchased here at the Britcher and Bender Drug Store or the college athletic office.

Los Angeles Asks For 2-Year Lease

LOS ANGELES (AP)—The new Los Angeles American League club has asked the Coliseum Commission for a two-year lease, but plans to build its own stadium as soon as possible.

Hank Greenberg, who heads the syndicate for a Los Angeles franchise, was informed that he probably will pay the same 10 per cent of admission receipts as rental as do the Los Angeles Dodgers.

Greenberg applied Wednesday for 81 dates in the Coliseum and assured the commission that they do not conflict with those of the Dodgers.

NATIONWIDE DINNER HELD

New members of the Policyholders' Advisory committee of the Nationwide Insurance Companies for Adams County were selected at a dinner meeting of approximately 100 policyholders and local representatives Wednesday evening at Trinity United Church of Christ.

The new committee members named are Horace H. Waybright, Gettysburg R. 2; Milton Hoffman, Gettysburg R. 5; E. W. Baldwin, New Oxford R. 2; and Norman G. Blocher, Aspers R. 1.

Kenneth M. Hankey, York Springs R. 2, a member of last year's committee, will serve for another year. The new men succeed Kermit Sterner, Russell Durbin, Ryland Garrettson and Clay Snyder. The committee will meet soon to select a regional representative. The committee members make suggestions to the companies through regional meetings.

At the dinner session here Wednesday the Rev. Dr. H. S. Fox gave the invocation. Sterling F. Musselman presided. Sales Superintendent Glenn Frank, Harrisburg, spoke on the development of Nationwide since its beginning in 1926 and a company film was shown.

Kenneth Hankey, last year's regional representative from the county committee, reported on regional meetings he attended. Melvin Prosser led a discussion session when policyholders presented new ideas for consideration.

## Judge Tells Jury To Reach Verdict

LOS ANGELES (AP) — "This is a case on which you can reach a verdict," the judge told the jurors in the second Finch murder trial. "Now go back and resume your deliberations."

The jurors had spent 50 hours pondering the fate of Dr. R. Bernard Finch, 42 and his onetime mistress, red-haired Carole Tregoff, 23, then they returned to court Wednesday to ask several questions.

The defendants are accused of plotting and carrying out the gunshot slaying of the doctor's estranged wife, Barbara Jean, 36, in July of 1959.

Grant B. Cooper, attorney for Finch, told the court that his client took exception to the judge's remark that the jury should be able to agree. The first jury, unable to do so after 37½ hours, was dismissed.

WASHINGTON (AP) — Louise Jean Wilson of Lansdale, Pa., is the newest member of Whirly-Girls, an international group of women helicopter pilots. There are only 30 members in the association.

Whirly-Girls said Wednesday Mrs. Wilson and her husband, James, completed their helicopter training in June. The association added there are only five other husband-wife helicopter teams in the free world.

and Mrs. James Eisenhart, Locust St., entertained the Friendly Teens Sunday School Class Sunday afternoon at their cabin near Fuller Lake. Thirty-five persons, class members and friends, hiked approximately 10 miles to Pole Steeple during the afternoon. The occasion marked the birthday of the host. ## CY HOWARD THINKS WELL OF CHARACTER

By CYNTHIA LOWRY AP TV-Radio Writer

NEW YORK (AP)—Cy Howard is an articulate, fast-moving young man-about-television who thinks he has discovered the secret of making popular situation comedies, even though the jury—the nation's viewers—is still out where his two new and current projects are concerned. (They are "Guestward Ho!" and "Harrigan and Son" on ABC).

"The test of all television shows," declared the crew-cut producer, writer, director-actor, "is 'Does the audience like the people in the program?' Audiences just won't sit down and watch performers they don't like."

"You can get away with any kind of a plot if the characters are right. And one of the tricks in making a half-hour show come off is to start with characters who are so well established in the minds of the viewers that they know all about them."

Howard confessed that in casting "Harrigan and Son" he chose Pat O'Brien to play the father because the actor "brings to the program all his years in motion pictures which have established him as a definite type of personality."

**MAKE SWITCHES**

Audiences are accustomed to family set-ups in TV situation comedy and one way to take advantage of this familiar frame is to make switches within it. For instance, Howard had the idea of making the "mother" role in the show that of the older woman who is the young lawyer's secretary, and the "kid sister" role, he added, "in three years we can have the girl and the young lawyer fall in love and get married and we're set for another run with O'Brien playing a grandfather."

Howard has been fooling around with situation comedy formulas for years. He created the old "Irma" series, "Life with Luigi" and "That's My Boy."

WASHINGTON (AP)—The Community Facilities Administration announced today a \$2,322,000 loan to Beaver College, Jenkintown, Pa., for construction of a dormitory for 400 students and a college union with dining facilities to accommodate 600.

The project will be built on the school's new campus at Glenside, a few miles northwest of Philadelphia.

## ONE VOTE COULD WIN—YOURS!

No matter how many millions of ballots are cast, it takes only one vote to win a closely contested political campaign. In 1948, for example, our presidential election was decided by one vote in each precinct of just two states. You can see why it's so important for you to vote. That one vote of yours could make all the difference. That one vote could make history.

**FRIGHTENED BY POLICE**

Their next stop was Rudisill's East End Gas Station on York St. where they broke a window. When they saw the lights of the borough police car approaching, they hid until police passed, then drove away.

Returning to Littlestown they decided that it would be unsafe to re-enter Maryland in a stolen car with the same license plates from Krise's car and put them on the convertible.

**ARRESTED IN VIRGINIA**

Deciding to go to Florida, they headed south into Virginia. There they picked up two sailors hitchhiking to Norfolk.

Other told police he was driving when a Virginia state policeman started to chase the speeding convertible. Police said Otter claimed he tried to outrun the Virginia policeman's car and the chase reached a speed of 120 miles per hour. On a curve Otter lost control and the convertible was wrecked. Howdershell, the only one injured, suffered a dislocated shoulder.

Police said Otter told them, "We were going so fast during the chase one of the sailors fainted."

Virginia officials, after taking the youths into custody, turned them over to Towson authorities for further action.

## KEEFER SAYS

(Continued From Page 1)

of six years. Their terms will be staggered so that approximately the terms of one-third will expire at the same time.

"Under the merger there will be a uniform tax rate for school support in the entire administrative unit. Present tax collectors will continue to collect the taxes which they will turn over to the merged school district treasurer.

"Liabilities and assets of the individual school districts become the liabilities and assets of the merged school district. There is no disadvantage in this plan that increased subsidies will not adjust once the merger is effective.

#### MORE STATE MONEY

"No one can honestly answer the question of the cost of the merged program, since all costs, including education, have increased and are increasing all the time. We can say this with confidence that for the school district, which has offered all the services required for a complete school program, the costs will not be more than they would be under the present system. This is assured too that there will be more state appropriation under the merged system to support the program.

"Here we have a choice either of voting the merger and thus qualify for increased appropriation or raising the tax levy to make up the difference. The increase in school appropriations as the result of a merger will be equal to the amount raised from a real estate tax of five to six mills on the present assessed valuation of the districts.

"Under the merged school district there is no duplication of records and reports. One report covers the whole subject for any given area as auditors' report, annual budget, enumeration of children, etc. In most cases under the jointure system each report is multiplied by as much as eight times. A conservative estimate of the number of reports or forms processed in a jointure is more than 100 in the course of a year. What a great waste of time and materials. In a merged district, this number would be reduced to approximately 20 reports.

"The officers of the merged board consist of a president, secretary, and a treasurer. (Only one each instead of as many as seven or eight under the joint system.) Merged board organization is identical to the joint board organization and should cost no more to operate. To the merged district, therefore, will accrue the savings of the salaries of the secretary and treasurer together with the cost of their bonds for each town.

Airman Barry Clinton Bixler, son of Mr. and Mrs. Gerald Bixler, Gettysburg R. 5, who has been assigned to a unit of the Air Defense Command at Selfridge AFB, Mich., for training and duty as a wood worker. He is a graduate of Gettysburg High School.

## TELLS PTA OF SCHOOL MERGER

The Lower Adams Joint PTA, meeting Tuesday in the elementary school building in New Oxford, unanimously approved the merger program.

Upper Adams School principal Donald Hudson said: "I cannot see how any district can afford not to become merged. It has saved the Upper Adams School District \$340,000 in school construction funds.

Dr. Herbert Bryan, New Oxford, from the state Department of Public Instruction, answered questions.

Membership chairman, Mrs. Clyde Garber, reported 26 new members. The total membership is 256.

A shopping trip to Philadelphia is being planned for members for early in December. Deadline for bus reservations is Thanksgiving Day. A report from Treasurer Glenn Shupp, shows \$400 in the treasury. This amount does not include receipts of the refreshment stand the PTA sponsored after the recent Halloween parade in New Oxford.

Mrs. J. Francis Yake presided at the session and announced that the next meeting will be held December 1 in the elementary school building.

ship and/or borough included in the district. In all cases the total saving is a substantial sum of several thousand dollars.

"In total operations, tax savings can be effected through the elimination of duplicate costs of the several boards. As a merged school district long term planning is made easier. There is an advantage in financing new buildings because interest rates on bonds are considerably lower in merged districts. The financial strength of the merged school district is the average of all the districts while in a joint system the financial structure is limited by the ability to pay of the weakest district.

CALLED "NECESSITY"  
"In fact, the merged district is not only an advantage but a necessity. Supplementary reimbursement for instructional purposes is based on pupil units—30 elementary pupils equal one unit and 22 secondary pupils equal one unit. In joint operation the reimbursement is \$500 per unit. For merged school districts the reimbursement is \$800 per unit or a gain of \$300 per unit. Through the increased supplemental appropriations alone the gain would amount to 10 to 15 thousand dollars. The net gain per annum in dollars from all accruals in the districts voting next week is between \$20,000 and \$25,000. Multiply these sums by 30 or 40 years and you have truly a large sum of money.

"When the jointure was first created the intent was to form a merged school district within a few years. The Adams County jointures have worked very successfully. But they have served their purpose and are now ready for the next step—the merged organization. A careful scrutiny of all the facts reveals no disadvantages in the merged school operation.

"Vote 'yes' on the merger."

## The POWER of FAITH by Howard Brodie

The Prophet Micah inspires men today as he has through the centuries with the hope of universal peace and God's requirement of men:

"and they shall beat their swords into plowshares, and their spears into pruning hooks; nation shall not lift up a sword against nation, neither shall they learn war any more."

"and what doth the Lord require of thee, but to do justly, and to love mercy, and to walk humbly with thy God."

## Emmitsburg Is Plunged Into Darkness When Youth Steals Car And Breaks Power Pole

The ghosts and goblins at Emmitsburg had a perfect setting for Halloween Monday night as an 18-year-old boy allegedly stole a car and clipped off a power pole causing the disruption of service in some parts of the town for about five hours while the remainder of the town was blacked out for only about an hour.

The boy was apprehended a few minutes later but not until he had crashed into another pole near the entrance to St. Joseph College along Route 15 which knocked out telephone service for some time.

Arrested was William Joseph Ott Jr., of Emmitsburg.

Officer W. E. Law of the Emmitsburg police force charged the youth with unauthorized use of a motor vehicle, exceeding 70 m.p.h., hit and run driving, reckless driving and driving with no operator's license in possession.

#### STOLE PARKED CAR

Officer Law said Ott took a 1952 Plymouth sedan owned by William E. Tyler, Emmitsburg R. 1, from its parked position along Lincoln Ave. about 10:30 p.m.

While patrolling the town, Officer Law, who was on Fraley Ave. which leads from W. Main St. to Lincoln Ave., saw a light at the car and believed it was some youngsters.

About that time the car "laid rubber," according to the policeman, and headed east on Lincoln Ave. The vehicle then veered out of control and clipped off a power pole.

As the pole was clipped off, a 12,000 volt power line fell down on the line which serves the street lights in the western part of town and blew out all of the fuses at the lights in the area.

The clipping off of the pole did little more than slow down the fleeing youth, however, as he pushed the pole out of the way with the car and continued down the street to Route 15 where he turned to the right and headed south.

#### CLIPS OFF POLE

Officer Law was a short distance behind the youth when he clipped off the pole but with sparks flying around the area from the break in the power line, the law officer was forced to back his car from the pole and use an alley to get onto W. Main St. to

pursue the youth. Luckily the officer had the green light at the square and he proceeded south on Route 15. Officer Law saw the vehicle swerving from one side of the road to the other.

When he got within about 100 feet to the rear of the fleeing car he paced it at 78 or 79 miles per hour. The speeding car forced one car heading north on Route 15 off of the road, it was reported.

As the fleeing auto traveled south on Route 15 at a break-neck speed, the driver then lost control of the vehicle and it crashed headon into a telephone pole. The vehicle also clipped off this pole at the ground but unlike the first time was unable to proceed any further.

A spokesman for the Potomac Edison Co. said that when the 12,000 volt line fell across the wires in the west end lighting system of Emmitsburg, the lights went out and stayed out for about five hours before repairs were completed.

It was reported that a new pole had to be planted before repairs could be finished.

In order to repair the lights in the west end of the town, it was necessary to turn all of the lights out for about an hour, the utility spokesman reported.

Ott was not injured in the crash. Police said it was raining at the time of the accident in addition to being foggy.

The entire chain of events, from the taking of the car to the clipping of the last pole, consumed only about five minutes, Officer Law stated.

In spite of the darkness, there was practically no Halloween activity in the town. It was reported that two garbage barrels were turned over in the eastern section of the town and four paint buckets filled with water were placed in the middle of a side street.

## Train Strikes Two Empty Cars; 21 Hurt

PHILADELPHIA (AP)—An inbound Reading Co. train failed to stop in time Wednesday and hit two empty passenger cars in the Reading Terminal. Twenty-one of 50 passengers were injured.

Most of the passengers aboard the train, a Chestnut Hill local, had risen to their feet as the train began to slow for the expected stop. However, it crashed into two parked cars, which rammed into a bumper. The bumper held, although the wooden facing was shattered.

Most of the injured were treated and released from three hospitals.

## Littlestown

## NOMINATIONS ARE MADE BY FIRE COMPANY

Final nominations for the annual election of officers of the Alpha Fire Company No. 1 of Littlestown were concluded at the November meeting of the company Tuesday evening in the engine house with President Dennis W. Wallick presiding. Fifty-three members attended. The election will take place on Tuesday, December 6, with the polls open for voting from 6:30 to 8:15 p.m.

Candidates for the election are as follows: President, Dennis Wallick; vice president, Glenn E. Unger; secretary, Harry W. Badders and James Riley; treasurer, Paul E. Altoff; fire chief, Richard Stuller; first assistant, James P. Hahn; second assistant, Jack E. Robert; truck foreman, Kenneth W. Olinger; chief nozzelman, Carl Wantz; pipe foreman, Fred A. Miller; trustee for five years, Walter C. Myers; trustee for the relief fund, Ralph L. Staley, and chaplain, Clair J. Redding. The following election board was appointed: Joseph H. Redding, David S. Little and Robert C. Koutz.

The session opened with group song and a prayer. Harry Badders, secretary, gave his report. Following a discussion, it was decided that organizations of the community who may wish to show the 75th anniversary films at their meetings could find them available upon request and approval of the company. The movies were taken during the parade by Samuel H. Higinbotham and Donald C. Feaser and developed and edited by the foreman.

## MONITORS ORDERED

Howard O. Myers, Henry E. Waltman and Richard Stuller, who comprise the committee to handling of dial telephones in the community, reported their progress. A final meeting announced for the near future, when the safety committee for the borough council, the supervisors of Germany and Union Twp. and officials of the Kingsdale Fire Company will meet with this committee, to adopt a workable method of benefit to all concerned.

Fire Chief Richard Stuller reported three calls for the month with a total damage estimated at \$17,260. The fire chief announced that monitors have been ordered and will probably be delivered within the month, to be set up between Littlestown and Tancyp town fire companies as a mutual service to both communities.

It was announced that efforts are being made through Dr. Leonard L. Potter, local physician, to secure an instructor to conduct a first aid course at the engine house for interested persons of the company. There was a demonstration of the latest portable equipment in the resuscitator, inhalator and aspirator line by A. J. Bufano, Philadelphia, representing the J. H. Emerson Co., Cambridge, Mass., who also explained the various uses of the equipment be demonstrated.

Truck foreman Kenneth Olinger reported that all trucks have been inspected and are in satisfactory condition, but that the Mack truck will need a new set of tires in the near future. The company voted to authorize the secretary to advertise for bids for six new tires and tubes for the Mack truck. It was noted that a hand light is missing from one of the fire trucks, which may have been misplaced during one of the fires, or it may have been borrowed and it was requested that anyone having information about the light contact the truck foreman.

David Reaver was elected to social membership in the company. Bills were ordered paid amounting to \$373.91 and the receipts of the evening totaled \$173.20; of this amount there were donations for services rendered by the company, from the Littlestown Hardware and Foundry Company Inc. and from the Curtis W. Harner family. A letter of

## Cyclone Toll Reaches 4,000

CHITTAGONG, Pakistan (AP) — Four thousand more persons reportedly were killed Monday by a cyclone and tidal wave in the Chittagong area of the Bay of Bengal coast.

It was East Pakistan's second such catastrophe within a month. A cyclone and tidal wave on October 10 killed an estimated 6,000 persons on islands off the coast.

The first semi-official assessment of Monday's storm damage was announced today.

Deaths and damage have not yet been reported from the islands wrecked by the previous storm.

## TO DEDICATE CEMETERY PLOT

Dedication ceremonies for the newly-opened two acres of land of the New Oxford Cemetery will be held Sunday afternoon at 2:30 o'clock.

Among those participating in the service will be Rev. Dr. George E. Sheffer, Rev. Amos D. Meyers, and Rev. John Z. Martin. Hubert B. Flaherty will speak on the history of the cemetery.

The New Oxford Cemetery dates back to January 21, 1864, when a charter was granted by the Adams County court. The following persons names appeared on the charter petition: Peter Diehl, John Barnitz, Washington N. Swartz, William D. Himes, Joseph S. Gitt, Joseph Stoner, John L. Hersh, A. F. Gitt, Michael Livestine, Frank Hersh, William Stock, John R. Hersh, Elias Slagle, Aaron Heagy and James Townsend. For an unknown reason the charter was not lifted until 1873, at which time the association was formally organized with the following officers: President, William D. Himes; managers, Peter Diehl, John R. Hersh, Aaron Heagy and W. M. Swartz, J. S. Gitt was appointed secretary.

Present officers of the association are: Curtis S. Spenseller, president; G. W. Sadler, vice president; Robert Brothers, secretary; Hubert B. Flaherty, treasurer, and Cleason Stoner, superintendent. Other directors are Amos Little and Fred F. Feiser.

It was announced that the ceremonies are open to the public and will take place rain or shine.

## WEST GERMAN BATTALIONS IN FRENCH CAMPS

SISSONNE, France (AP)—Four battalions of West German soldiers arrived at French training camps today and were ordered to work immediately.

"Time in France is expensive," said a West German army spokesman.

These are the first combat soldiers to arrive under a new French-West German agreement allowing training sites in France. More soldiers will follow at periodic intervals. A spearhead moved into France last week to set up the camps.

The soldiers will be too tired to spend much of their money except on weekends, the officers said, although they can go to town if they want to when off duty.

In the two towns where the West Germans are training, the soldiers will find recreational facilities fairly slim. There are a few cafes with bars, a few tiny hotels and that's about all.

"This is a land tried by two major wars and whose civilians have lost relatives and whose memories will come back when German soldiers train here," said an order of the day given the soldiers before their arrival. "Humility and good behavior are necessary so the French can forget."

thanks was read from the ladies' auxiliary to the company for the check for \$250 given to them by the unit for their assistance at the annual summer carnival. It was voted to have a banquet for all those members of the company who assisted with the work of the carnival and the following time, and place committee was appointed: John Harner, Walter Myers, Clyde W. Harner, Dennis Wallick, Jack Rebert and Howard Myers.

At the conclusion of business, refreshments were served by Levi Hull, Calvin S. Mummert and William Warner, who also comprise the social committee for the next regular meeting of the firemen on Tuesday, December 6.

Philadelphia and Chattanooga will have a baseball working agreement next season.

HARRISBURG (AP)—The State Agriculture Department said today it is going to make a special survey of wholesale food facilities in northeastern Pennsylvania.

Secretary William L. Henning said the survey—similar to one already undertaken in Philadelphia and Pittsburgh—is aimed at aiding long-term development of the northeast counties.

The study's recommendations will be made available, Henning added, to the Northeastern Pennsylvania Industrial Development Commission which requested the survey.

## BIBLE READING IN SCHOOLS IS CALLED LEGAL

BALTIMORE (AP)—Maryland's attorney general has ruled that religious exercises opening public school classes in Maryland are constitutional but he said students cannot be compelled to attend them.

The official, C. Ferdinand Sybert, said students objecting to Bible readings and recitation of the Lord's Prayer may be excused from class during the brief ceremony.

The ruling said objections to Scripture readings fail to justify absence from school. The only recourse for objecting parents, the opinion said, is enrollment in a private school.

The state's chief legal adviser had been asked by Dr. Thomas G. Pullen Jr., state superintendent of schools, to rule on the legality of a 1905 Maryland law which requires the daily exercises.

**OPPOSES BIBLE READING**  
Dr. Pullen's request was prompted by a parent's action last week. Mrs. Madalyn E. Murray, who describes herself as an atheist, had withdrawn her 14-year-old son, William J. Murray, from classes at Woodbourne Junior High School in protesting the law.

Young Murray, a ninth-grader, had been absent from school since Oct. 12 until last Friday when he returned briefly. While attending sessions this week, he has been excused from religious ceremonies pending the legal ruling.

Mrs. Murray said Wednesday night she is still not satisfied. "I definitely will make an attempt to stop Bible reading altogether," she said.

## 1919 LAW BANS NEVADA BETS ON ELECTION

CARSON CITY, Nev. (AP) — News of a forgotten state law against election bets has thrown Nevada bookmakers into confusion—and stopped wagers on the presidential race.

The biggest question: What to do with all the money already bet on Democrat John F. Kennedy and Republican Richard M. Nixon.

Books had been doing a thriving business on the race for president.

But while Nevada has legalized just about all forms of gambling, a 1919 law bans any type of bet on any election.

"I quit!" was the response of a Reno odds-maker. He promptly pulled down all signs quoting election odds.

**ODDS ARE ERASED**

In Las Vegas, all eight race books erased their odds before a news story about the forgotten law hit the streets.

Public officials were slower to react. Atty. Gen. Roger Foley said the law was a problem for local authorities. Gaming Control Board Chairman Ray Abbatichio agreed.

But in Reno, Dist. Atty. William Raggio said he had heard no complaints and didn't think the law was practical anyway "in view of the present status of gambling in this state."

Acting Las Vegas Police Chief George Allen Jr., issued an order forbidding any more election bets, but word of the old law seemed to be enough.

**"WILL PAY WINNER"**  
Bookies disagreed on what to do with the bets they hold.

"We're going to pay the winners and collect from the losers," one said. "That's the only way to do it."

"I don't see how we could go ahead," said another. "If a man lost his money and discovered the bet was illegal he'd try to get it back."

No one seemed to know how much money was involved.

As the bookies closed election operations, the odds were still 8 to 5 for Kennedy and 6 to 5 for Nixon.

**DETECTIVES' COMPLAINT**  
NEW HAVEN, Conn. (AP) — Who pays for a plain clothesman's plain clothes? The police department does, but New Haven detectives wish it would pay a little more. The current budget allows \$25 a year for each man's clothing. Uniformed policemen get their working clothes free.

**EYE CATCHER**  
— Here is a familiar actor in a new role. It's Harpo Marx, made up as a mechanical man for a forthcoming TV show, and he plays a dramatic part.

## COMPANY "K"

Richmond, Va., and opening next summer.

### AT WEAPONS SCHOOL

Use of a new trailer for the cannon turned over to Company K for its use by the local Moose lodge was reported. Lawrence Crouse was given a vote of appreciation for his work in constructing the trailer.

Plans were made for participation Sunday in a Veterans' Day observance at Brunswick, Md., where the company will fire both the artillery and musket salute and participate in the parade.

A number of members were reported attending a school on weapons construction being held by a Westminster North-South Skirmish group. Norgan and Harman were reported at work on plans for a half scale Parrott cannon. Others building model cannon are John Stark and John Parr while Norman Plank is constructing a boot pistol.

ELEANOR SAYS SHE'S CHANGED MIND ON JACK

PITTSBURGH (AP) — Mrs. Eleanor Roosevelt says Sen. John F. Kennedy is a good bit like her late husband in getting along with the public.

Kennedy has "identifications with and participation with people" similar to those of the late president, the former First Lady said at a news conference Wednesday.

Mrs. Roosevelt was in town to speak in behalf of Kennedy, the

Davis, 141 Barlow St., have completed the initial course of Air Force basic military training here. Zhea has been assigned to attend the technical training course for a medic at Lackland AFB, Texas, and Davis the training course for an administrative clerk at Amarillo AFB, Texas.

Democratic presidential candidate.

"WISER MAN" NOW

"As the campaign progresses, I see more and more evidence of Sen. Kennedy's capture of the enthusiasm of the people. You see it everywhere," she said.

Mrs. Roosevelt also commented on her change of mind concerning Kennedy as the Democratic nominee. She explained that her earlier objection to him was based on an interview Kennedy had with a southern governor.

She said Kennedy at the time conducted himself with "ignorance" on the Negro question. "Since that time, Kennedy has grown into a much wiser man," she said.

Two American Scientists Are Awarded Nobel Prizes

STOCKHOLM (AP)—Two American scientists — Dr. Willard F. Libby and Dr. Donald A. Glaser — today were awarded the 1960 Nobel prizes in chemistry and physics.

Libby, 51, former member of the U.S. Atomic Energy Commission, was awarded the chemistry prize for devising the "atomic time clock," a method of determining the age of fossils, wood and other organic matter by measuring the amount of radioactive carbon present. The process can determine within 200 years the age of samples as old as 25,000 years.

**"BUBBLE BATH CHAMBER"**  
Glaser, 34 and a member of the faculty of the University of California at Berkeley, was named the physics laureate for invention of the "bubble bath chamber" for photographing atomic particles. Superheated liquid in the chamber slows down the high-speed particles until they appear in photographs as a string of bubbles.

They were the 73rd and 74th Americans to win Nobel awards since the annual prizes were first given in 1902. Each will receive a check for \$43,627 from the trust fund left by Alfred Noble, the inventor of dynamite.

**NO PEACE PRIZE**  
The committee announced without explanation last week that the other award—the peace prize—would not be given this year. It is the 17th time this prize has been withheld.

Libby, the first scientist ever appointed to the AEC, quit the commission in 1959 and went to the University of California at Los Angeles.

**NATIVE OF COLORADO**  
A native of Grand Valley, Colo., Libby intended to become a mining engineer until he entered the University of California and switched to chemistry. He received his Ph.D. there in 1933.

A strong-willed individual, he is

known among his associates for an intuitive approach that enables him to guess correct answers before an experiment even begins.

Libby remained on the California faculty until 1941, when he took a leave to join the secret Manhattan Project that developed the first atom bomb. He worked at Columbia University on the job of separating by diffusion the fissionable isotope of uranium 235 from the other uranium isotopes.

In 1945 he joined the University of Chicago's Institute of Nuclear Studies.

**SIDED WITH TELLER**  
During his first term on the AEC advisory committee, from 1950 to 1954, Libby sided with Dr. Edward Teller in opposing delay in developing the hydrogen bomb and was one of the discoverers of natural tritium, an element of the H-bomb.

Glaser was born in Cleveland, Ohio, in 1926 and was graduated from Case Institute of Technology there in 1946.

He went to the University of Michigan in 1949 as an instructor, later becoming a professor, and took his Ph.D. in physics in 1950 from California Institute of Technology, at Pasadena. This year he joined the University of California's famous physics staff at Berkeley.

The U.S. Junior Chamber of Commerce named Glaser as one of America's 10 outstanding young men in 1958. The next year he was

Fails In Record Try At Corn Acreage

BOONEVILLE, Miss. (AP) — The golden acre on Paul Ratliff's farm yielded 295 bushels of corn this year, a little more than nine bushels less than the world record, he claims.

Prentiss county agent W. T. Smith said the yield this year was harvested by Ratliff's son, a 4-H Club member. Lindon's older brother, Lamar, set the high mark of 304.38 bushels an acre in 1955.

## IKE PRAISES NIXON, LODGE IN N. Y. TALK

**EDITOR'S NOTE:** Jack Bell, veteran Washington political reporter, here gives his analysis of the effects of President Eisenhower's New York campaigning for Vice President Richard M. Nixon.

By JACK BELL

NEW YORK (AP) — President Eisenhower's tandem campaigning with Vice President Richard M. Nixon appeared today to have fallen short of delivering a knock-out punch in the battle for New York's 45 electoral votes.

Eisenhower gave lavish praise to Nixon and his running mate, Henry Cabot Lodge, in a series of city and suburban appearances climaxed in a whistling, howling, stamping rally that overflowed New York's 6,000-seat Coliseum Wednesday night.

But the high expectations of Nixon's supporters that the President would direct withering political fire at Sen. John F. Kennedy were only partly realized.

**STARTLING WELCOME**—A line of Confederate gray greeted visitors to the State Fair and Exposition Center at Louisville on the opening day of the Kentucky State Fair. The "rebels" were part of the Civil War Centennial ceremonies held on the same day.

on's supporters that the President would direct withering political fire at Sen. John F. Kennedy were only partly realized.

### H'T AT KENNEDY

Without naming him, Eisenhower did criticize Kennedy as one who is "bewailing America's strength" in the military and economic field. Also without naming him, the President fired some shafts at a Kennedy supporter, former President Harry S. Truman.

Eisenhower said that when he came into office in 1953 the United States was at war in Korea. He left out of his nationally televised speech the adjective "senseless" which he had used to describe that conflict in remarks he had prepared in advance.

"We were weak because the government had cut back our armed forces to their lowest ebb since the beginning of World War II, leaving Korea undefended," Eisenhower said.

### CONTINUOUS APPLAUSE

In the period immediately preceding the outbreak of Korean hostilities, Truman called Eisenhower in for consultation on the defense budget. The five-star general recommended a \$500-million increase which was voted by Congress.

In an indirect answer to Kennedy's contention that the United States has been losing prestige in the world, Eisenhower told the almost constantly applauding crowd that the number of those who defect annually from Communist-controlled countries is measured in the hundreds of thousands.

### MUSIC TO GOP

"And I point out that when people by the countless thousands will risk everything, including their lives, for the chance to join us on freedom's side of the Iron Curtain, there is no question in their minds about American prestige," he said.

All of this was music to the ears of Nixon and Lodge.

But there was obvious disappointment in the Republican camp that the President had not seen fit to tear into Kennedy with some of the zest he displayed for this role in a nationally televised speech last week.

## Governor To Push Housing Bills

PITTSBURGH (AP) — Gov. Lawrence says his administration will try with "more determination than ever" for passage of fair housing legislation in the 1961 General Assembly.

Speaking to a group of fair housing advocates here Wednesday, Lawrence said the bill was bottled up in a Senate committee during the 1959 legislature and it failed to be adopted.

"You can be sure we have not given up the fight, nor has the enthusiasm for the cause been lessened," he said. "If anything, I think we have more determination than ever to get this essential legislation enacted."

"In 1953 the platform of both political parties included a plank supporting such legislation," the governor said. "The Democratic House acted in good faith while the Republican Senate reneged on its party pledge."

The administration bill would prohibit discrimination in the sale of public housing.

## Negro Leader Ruled Ineligible To Vote

MONTGOMERY, Ala. (AP) — The Rev. Martin Luther King Jr. can't vote here Nov. 8 because of unpaid poll taxes, county officials have ruled.

The probate judge's office said King, who has moved to Atlanta, is ineligible for absentee voting because he has paid no poll taxes since 1958 and the deadline for payment was last February.

The Negro integration leader had said Tuesday he planned to vote absentee at Montgomery because his move to Atlanta last February was too recent to qualify him to vote in Georgia.

## Penna. Democrats Lead Registration

HARRISBURG (AP)—The Democratic Party officially held a registration lead over the Republicans today for the first time since the Civil War.

Lackawanna County's report was filed with the Elections Bureau Wednesday raising the official statewide Democratic total to 2,805,202 compared with 2,802,237 for the Republicans, a Democratic margin of 2,965.

Lackawanna was the last of the 67 counties to report and it showed 97,825 Democrats and 50,601 Republicans on its rolls.

The official report from Lackawanna confirmed the figures reported last week in an Associated Press tabulation based on unofficial figures from Lackawanna County and official reports from the other 66 counties.

### DIES FROM CRASH

PITTSBURGH (AP) — Mrs. Helen Edmundson, 68, died Wednesday night after being pinned under a car in the driveway of her Pittsburgh home.

Police said Mrs. Edmundson apparently lost control of her car while driving it down a sloping driveway to the garage. They said she either fell or jumped from the car and was dragged under it until it crashed into a walk.

## Wife To Divorce U. S. Renouncee

BUTLER, Pa. (AP) — A mother of two children is seeking a divorce from her husband who renounced his United States citizenship and became a citizen of the Soviet Union.

Mrs. Martha Burrell Webster, 29, filed the divorce action in Butler County Court Wednesday, charging Robert E. Webster, 31, with abandonment and indignities.

### STILL IN RUSSIA

Webster went to Russia in the summer of 1959 to work on an American exhibition in Moscow for the Rand Development Corp. of Cleveland.

Webster was to remain in Russia only six weeks. But in October, 1959, he renounced his U.S. citizenship and said he had been granted Soviet citizenship. He is still in Russia.

Mrs. Webster has been living in nearby Zelienople with her mother and two children, Mike, 8, and Anne, 6.

I am expanding economy, jobs and job opportunities for our counties become a major concern. For years I have been associated with one of Pennsylvania's biggest businesses — farming. I own and operate a farm and serve as supervisor of procurement and farm sanitation for a dairy. The income from farms provides many jobs in our area and keeps the wheels of commerce moving. Farming benefits everyone.

This close connection with this important business will aid me in the Senate in promoting and supporting programs designed to produce more jobs and job opportunities by fostering industrial growth. I will appreciate your vote on election day.

## SCOTTISH BASE FOR NUCLEAR SUB ASSAILED

By RAYMOND E. PALMER

LONDON (AP) — The British government launched a public relations campaign today in an effort to avert an outcry against the basing of U.S. nuclear missile submarines in Scotland.

As the first voices of protest were raised, the government invited leading officials of 12 towns and counties in the Clyde area to a meeting at Greenock Thursday to discuss the base agreement. The invitations were sent out by John MacLay, secretary of state for Scotland.

Prime Minister Harold Macmillan told the House of Commons Tuesday that Holy Loch, the Clyde yachting center 30 miles from Glasgow, would become a Polaris submarine base next February.

### RECOGNIZES RISK

A submarine tender, and eventually a floating dock, along with 1,500 U.S. navy personnel will be stationed there to service submarines that can fire the 1,200-to-1,500-mile range Polaris missile from under water.

## Refuses To Quash Burglary Charge

POTTSVILLE, Pa. (AP)—

President Judge James Curran has refused to quash burglary and larceny indictments against two of six persons charged with the robbery of the home of John Rich in 1959.

The jurist acted Tuesday on the motions of Lillian Reis, 30, Philadelphia nightclub owner, and Clyde L. Miller, Forked River, N.J. He still must rule on motions to free the pair from technical custody and discharge them from bail.

Miss Reis and Miller and four others are charged with participating in the burglary of the Rich home while the coal firm president was vacationing in Europe in August, 1959. Rich says \$20,500 was stolen. Philadelphia police estimate \$375,000 was taken.

of objections. "But on reflection," he said, "I hope the House will feel that this new arrangement does not add to the risks to which we are all inevitably exposed in this nuclear age."

### ATTACKED BY LABOR

Moscow radio warned that the Polaris base would be the target for "an inevitable retaliatory blow" if used for aggression.

Labor members of Commons at once attacked the arrangement,

## STATE BUILDS NEW FORESTRY BOYS' CAMPS

HARRISBURG (AP) — A new

forestry camp for rehabilitating delinquent boys will be constructed on state park land, the State Forests and Waters Department said today.

Secretary Maurice K. Goddard said the camp will be built by the General State Authority at Trough Creek State Park in southern Huntingdon County. It will cost \$270,000.

The GSA also has authorized identical amounts to improve the present youth camps at Raccoon Creek State Park, Beaver County, and Hickory Run State Park, Carbon County.

The Huntingdon County installation has to be designed yet, GSA Executive Director A. J. Caruso said.

The firm of Barney, Banwell, Armentout, and Divens, of Philadelphia, is designing two new dormitories for 50 boys, an administration-mess building, an activity building, play areas, utilities and access roads for the camp at Hickory Run to replace the limited facilities there.

## Orchestra Leader Dies In Rehearsal

MILAN, Italy (AP) — Dimitri

Metropoulos, noted Greek-American symphonic and operatic conductor, collapsed and died Wednesday while rehearsing at La Scala Opera House.

The 64-year-old musician had been rehearsing Mahler's 3rd Symphony for about 10 minutes when he stopped, stood motionless for a moment, then fell from the podium. He died on the way to a hospital.

Apparently death was due to a heart attack. Metropoulos had spent 10-year tenures as conductor of the Minneapolis Symphony and then of the New York Philharmonic. In recent years he also had been a leading conductor with New York's Metropolitan Opera Company and had toured in Europe extensively each year.

### DO WE REALLY HAVE A FEDERAL BUDGET?

The high sounding phrase, "We must balance the federal budget," is fallacious. Our federal government today does not even have a budget in the ordinary business sense. What we have is a mixture of capital and operating expenses that are thrown together indiscriminately. No well-managed business firm could, or would, operate in this fashion.

The United States is a growth country. Its budget must be handled in a business-like manner to assure its growth. For example, when AT & T, after analyzing the communication needs of the country for the next five, ten or twenty years, decides that new plant facilities are needed, it does not hesitate to resort to so-called "deficit spending." It will borrow a hundred million, a half-billion dollars, or more, on the promise that it is profitable to build toward future customer requirements. By turning money into productive assets, new customers are added, new services provided, and revenues are increased. Loans are amortized, and extra profits realized on capital investment. In financial circles, this is considered good business policy.

Senator Kennedy exercises this same good business principle when he urges that capital investment be made for flood control projects, airports, roads, schools, hospitals, housing, etc., to provide for the growing needs of this country. These capital expenditures will be self-liquidating, in that they will increase the gross national product, expand tax revenues, and benefit all businesses—large and small.

We must become more "businesslike" in running our government. Capital is only valuable if it is put to work to increase productivity. The policy of the Republican administration of restricting vital capital investments seriously and needlessly retards the growth of the country.

However, like AT & T and other well run businesses, it should be the duty of the Administration to cut operating expenses. In this respect, the establishment of long range national objectives, instead of year-to-year planning, or crisis-to-crisis operation (as is now the vogue in Washington), will result in immense savings.

A planned increase of expenditures is required to service the needs of our expanding population. Examine the annual reports of our well-managed, leading, growth corporations. Each year, budgeted operating expenses rise, but are offset by increased income. With the increase in national income, and thus tax revenues that will inevitably follow intelligent capital expansion, a balanced budget can be achieved within the framework of existing tax schedules.

Our present philosophy of managing government budget affairs is neither consistent with established business practices, nor does it serve our needs. Let's quit treating our federal budget as if it were a household budget that is prepared against fixed income. America must grow!

## Illinois Republicans More Optimistic Than Democrats

**Editor's Note**—This is the fourth in a series of Associated Press stories exploring the political situation in the "Big Six" states—areas where next Tuesday's presidential election could very well be decided.

By STAN KOVEN

CHICAGO (AP)—Both major parties speak confidently of victory in Illinois in the presidential election Nov. 8. But the Republicans seem a shade more optimistic about winning the state's 27 electoral votes.

Only a month ago, the Democrats would shrug when asked if Sen. John F. Kennedy seemed likely to win. The Republicans, on the other hand, have been predicting victory for Vice President Richard M. Nixon for at least three months.

### KENNEDY LEADS IN CITY

It is conceded by both sides that Kennedy will run far ahead of Nixon in Chicago—the heavily Democratic metropolis which casts about half of the state's ballots.

The question is: Will Nixon be able to pile up a margin in normally Republican downstate which will overcome Kennedy's expected big city plurality?

The Roman Catholicism of Kennedy is just one factor with unpredictable implications in Illinois. Another is the bid of Republican Gov. William G. Stratton for an unprecedented third term.

Four years ago, President Dwight D. Eisenhower swamped Adlai E. Stevenson, former Illinois governor, with a plurality of 847,645 votes. The total cast for the two men were 4,399,009.

### SEE NO LANDSLIDE

This year, the best political guess is that no landslide of the Eisenhower proportion is in the winds.

The most prominent statewide poll, conducted by the Chicago Sun-Times, has consistently shown Kennedy to be making inroads in those areas where Democrats switched to Eisenhower four and eight years ago.

Why this confidence on both sides?

Some sample comments: Republicans: "Nixon started out strong and has kept up. There would have to be some major political accident in the closing days of the campaign to beat him."

### NO AID TO NIXON

Democrats: "Kennedy's crowds have been large and exuberant in Republican territory. I think he has the spark and I think he's caught fire."

Newsmen on the political beat feel in general that while Stratton's third-term bid may not cost Nixon votes, it won't provide any assistance to the vice president.

The last Illinois governor to seek a third term was Republican Dwight H. Green. Stevenson defeated him resoundingly in 1948. No Illinois governor ever has won a third successive term.

The Sun-Times poll, which has a good record for accuracy in measuring the election sentiment of Illinois, reported midway in its samplings: "Only some kind of miracle could save Stratton from defeat by Otto Kerner."

### KERNER SHOWS STRENGTH

Kerner, a Democrat and former Cook County judge, has shown considerable strength in the cumulative samplings and he appeared to be running well in traditionally Republican downstate counties. Cook County includes the Democratic stronghold of Chicago.

Democrats, in fact, figure that Kerner and Sen. Paul H. Douglas will run better on the Democratic ticket than Kennedy. Douglas is challenged by Samuel W. Witter, Chicago attorney making his first bid for public office.

## Electric Floor Washer Is Good For Large Surfaces

Household equipment manufacturers have introduced an electric floor washer. The importance of this appliance depends upon the use the family will make of it.

The family with large areas of smooth surface floor coverings in the house may find the floor washer a desirable appliance especially if floors need frequent washings. However, the family with other pieces of equipment that do the same job just as well won't want to spend money for a floor washer.

The tank on a floor washer holds one quart or one and a half quarts of clear water. A low sudsing detergent plus some water is released when a control lever is released. The nozzle of the washer is equipped with a brush to scrub the area covered with detergent and water.

Another lever controls the motor and fan which produce enough suction to pull dirty water into a container. Dirty water does not mix with clean water. Several manufacturers make washers with removable tanks.

### LIGHT DUTY CLEANER

Some floor washers may be used as light-duty vacuum cleaners for floors and rugs. The tank used to collect dirty water is replaced with a tank to collect dust and lint. Whether this extra feature on the washer will pay for itself depends upon the vacuum cleaning equipment owned and the amount of such cleaning to be done.

Read the label carefully on the nylon carpet you are considering. If the label doesn't state "Made of carpet nylon," you would be wise to pass up the carpet regardless of its beauty.

Carpet nylon is several times

heavier and stronger than regular textile nylon fibers. Carpet nylon can withstand the hard wear that a floor covering gets.

Unfortunately, all nylon carpets are not made of carpet nylon fibers. Be cautious of bargains in nylon carpets. Such carpets may be made of regular nylon fibers or nylon waste and won't wear well. Be sure to read the label.

### NYLON IS RESILIENT

Carpet nylon is resilient, offering excellent crush recovery. It is one of the longest wearing fibers ever used in carpets, and it may be dyed any color from pale tints to vivid hues.

If the carpet you are considering is a nylon blend, be sure there is at least 20 per cent carpet nylon blended with the fibers, such as wool and cotton, to give strength and longer life to the carpet. Less than 20 per cent carpet nylon in the blend does not contribute much to the wearability of the carpet; a 30 per cent carpet nylon content is preferable.

Plastic foam has joined the home furnishings industry as a cushioning and padding material. The foam is lightweight, resilient, and easy to use.

Plastic foam appears under many names because of the several basic plastic resins which lend themselves to the foaming process. Names include polystyrene foam, polyurethane foam, urethane foam, polyfoam, and plastic foam.

Some sources prefer to use plastic foam to describe all the materials. Other sources use polyfoam as a general description, believing the term better explains the softness of the product.

Since the nature for all plastic foam is complex and chemical, consumers must rely on the furniture manufacturer to select the type used for a specific purpose. Consumers also need to rely on the manufacturer's claims for the dependability of the product and its use.

## 3 CONVICTED MEN APPEAL

EASTON, Pa. (AP) — Three men convicted on charges stemming from the disaster at the Knox River Slope Mine at Port Griffith in January 1959, have asked for a new trial.

August J. Lippi, 59, Exeter; Louis Fabrizio, 61, Yatesville; and Robert L. Dougherty, 62, Wyoming, submitted petitions to the Northampton County Court Tuesday.

Lippi and Fabrizio were convicted of involuntary manslaughter as a result of the Susquehanna River flooding that killed 12 miners. Dougherty was convicted, with the others, of conspiracy to violate mine safety laws to deprive employees of their contract rights and to conceal ownership of the mine company.

Fabrizio was the last president of Knox. Dougherty was president until Aug. 13, 1958. Lippi is president of District 1, United Mine Workers Union, and was charged with being a stockholder in the firm.

The trial was held in Northampton County on a change of venue from Luzerne County.

The court took petitions of the defendants' attorneys under advisement.

## SQUIRREL IS HYPNOTIZED

DALLAS, Tex. (AP)—Bingo, a 3-year-old squirrel monkey, resisted stoutly Tuesday but finally succumbed to hypnosis.

Dr. Irwin Rothman, a Philadelphia psychiatrist, used Bingo to demonstrate his findings on animal hypnosis before the American College of Osteopathic Surgeons.

### BITES DIRECTOR

The kicks and shrieks of the simian gradually subsided as Dr. Rothman crooned and waved a

S/A George B. Hughes, son of Mr. and Mrs. Blaine W. Hughes, Guernsey, who recently graduated from the U. S. Coast Guard Receiving Center's 13 weeks of basic training, is spending a leave at his home until November 7 when he reports to New York City for assignment to the Coast Guard's Third District.

finger before its eyes. Bingo lapsed into slumber.

Then a photographer broke in to ask Dr. Rothman: "Could you move your head a little more to the right?"

Bingo awoke and renewed his struggles. Before being quieted he sank his teeth into a thumb of Dallas Zoo Director Pierre Fontaine, who was holding the monkey.

In discussing animal hypnosis, Dr. Rothman said its use is practical for zoo and circus keepers to restrain their charges during treatment.

Rabbits and snakes are the animals most easily hypnotized, he said, and dogs are the most difficult subjects.

As for birds, Dr. Rothman said there's a sure way — just try "highway hypnosis," which is the term used in the cases of drivers who grow drowsy from watching the center stripe in a roadway. "Just paint a white line down their beaks," he said. "That'll do it every time."

## HAUL SERVICE RIGHT DENIED

HARRISBURG (AP) — Grim Brothers Trucking Co. of York has been put off another three months by the Public Utility Commission on its proposal to inaugurate cement hauling service between York and other state points, including the Northampton-Lehigh cement producing area.

The PUC said it cannot complete a study of the firm's proposal by Nov. 9, expiration of an initial six-months suspension ordered by the PUC when Grim Brothers first made its proposal.

The study was ordered after the Pennsylvania Railroad complained that Grim's proposal covers an unauthorized service.

Grim, however, countered that it has the right to transport masonry products and that cement is a principal material used in their preparation.

Testimony is being taken primarily to determine whether movement of cement, particularly in bulk, is included in Grim's rights.

A dispute similar to the Grim-PRR controversy involves D. F. Bast, Inc., Allentown trucker, charged by five cement-carrying railroads with transporting bulk cement under lease from the cement producing center without authority. The railroads are joined by three truckers with specific cement hauling rights.

### COOLS OFF—AT 101

TEMPE, Ariz. (AP) — Temperatures had been hovering around 110 degrees in Tempe, so when the thermometer dipped, the Tempe Daily News said: "It is only 101 as cold snap hits in valley."

## MR. CANDIDATE

by Patrick and Vinmont

## RICHARD MILHOUS NIXON

Born at Yorba Linda, California, January 9, 1913. He was graduated from Whittier College in 1934 and Duke University law school in 1937. He practiced law in Whittier, California, for five years and after serving as attorney in the Office of Emergency Management in Washington, D. C., he entered the U. S. Navy in 1942. Commissioned a lieutenant, junior grade, he was a lieutenant commander when discharged in 1946. He served as an elected Republican member of the United States House of Representatives, 1946-50, and as United States Senator from 1951 to 1953. In 1952 he was nominated Vice President of the United States and with Dwight D. Eisenhower was decisively elected. He was renominated and elected again in 1956.

As a congressman, he helped draft the Taft-Hartley act, and as a member of the House Committee on Un-American Activities gained national attention for his role in the investigation of a former State Department official. As Vice President, he has presided over the Cabinet and National Security Council meetings in the President's absence. He has been the leading spokesman for the Eisenhower administration and the President's good-will ambassador to the Middle and Far East in 1953, the Caribbean area in 1955, South Asia in 1956, and South America in 1958.

His activities mark a drastic change in the complexion of the office of Vice President and have shattered the old theory that the Vice President's job is the turn-pike to oblivion. Recognition of his apprenticeship as being well spent was shown at the Republican National Convention by nomination on the first ballot as the Republican nominee for President.

Should he win in the November election, he would be the first Vice President in 124 years to be elected Chief Executive of the United States.

### HENRY CABOT LODGE

Born in Beverly, Massachusetts, July 5, 1902. He was graduated from Harvard in 1924. After eight years as a reporter and editorial writer on Boston and New York newspapers, he entered politics as an elected member of the Massachusetts Legislature. Elected a member of the United States Senate in 1936, he served 14 years, taking time off after being re-elected in 1942 to serve in European and North African battle areas during World War II. He rose to the rank of lieutenant colonel in the Army. He was the first United States Senator from the time of the Civil War to leave the Senate for military service. He resigned his elective seat in 1944 because of a Presidential ruling barring members of Congress from war service. He was elected to the Senate again in 1946. Defeated for re-election in 1952, he was appointed chief United States delegate to the United Nations in 1953 with the diplomatic rank of ambassador.

Standing firm in his belief that the United Nations is one of the great diplomatic facts of the world, he has in the eight years as the chief spokesman for the United States effectively counterattacked Communist propaganda. His hard-hitting tactics in debate and his proven ability to negotiate with the Communists have made him known to millions of Americans as the man who talks back to the Russians. He is a recognized authority on international issues.

At the Republican National Convention, he was unanimously nominated the Republican candidate for Vice President of the United States.

### MRS. RICHARD M. NIXON

Patricia Ryan was born in Ely, Nevada, March 16, 1912. Always called Pat by her father, she dropped her christened name, Thelma Catherine, and took the name of Patricia. In 1913, the family moved to a truck farm near Artesia, California. Pat was 11 when her mother died, and she worked as housekeeper for her father and brothers. When she was 16, her father died. Eager and determined to gain a college education, she attended Fullerton Junior College for one year, earning her way by doing part-time work in a bank in Artesia.

A chance opportunity took her to New York where she worked as a secretary and laboratory assistant until her savings were sufficient to enable her to enter college. While a student at the University of Southern California, she earned her way working in the cafeteria, the college library and as a part-time salesgirl. She was graduated with high honors. As a teacher in Whittier Union High School, she met lawyer Richard Nixon. Three years later, in 1940, she became his wife. They have two daughters, aged 14 and 12.

Since 1946, when her husband entered politics, she has worked tirelessly in his campaigns, showing the same determination to succeed that is reflected in her early life. During the past eight years, she has traveled with her husband on his good-will missions to foreign countries, always exhibiting the qualities of a great lady.

Should Vice President Nixon be elected President, charming, accomplished and capable Patricia would be a popular First Lady in the White House.

Make sure that any meat you put in your freezer is wrapped properly, otherwise it will dry out quickly. The top wide part of a discarded nylon stocking can be used to cover an irregular-shaped piece of meat, then the whole thing should be wrapped in moisture-proof vapor-proof freezer paper or foil.

## NAVY PLANS NEW TESTS FOR SPACE TRAVEL

PHILADELPHIA (AP)—The Navy plans tests in which men will re-use their own oxygen and water over and over again—conditions simulating those found in extended space travel.

Tests already have been run in which men have breathed their own purified oxygen for as long as six days.

And Tuesday the General Electric Co. reported that results of a test on a Navy captain verify there were no harmful effects on the human system from continual use of water obtained from a recovery device developed by GE's missile and space department.

Now the Navy plans to combine the water recovery device with the oxygen recovery equipment to simulate conditions found in ex-

tended space travel.

### NO HARMFUL REACTION

Capt. Roland A. Boree of the Navy Medical Corps, whose liquid consumption for six days was only his own purified metabolic waste, showed no harmful reaction, the firm said Tuesday.

GE said the test, first of its kind over an extended period, was undertaken to prove the reliability of water obtained from the recovery device.

Blood and urine analyses were made before, during and following the experiments Oct. 18 through Oct. 23.

Capt. Boree is director of the Air Crew Equipment Laboratory of the Naval Air Material Center here.

NEW YORK (AP)—The Catholic Digest, most widely circulated Roman Catholic publication, is starting two new foreign editions—in Manila, the Philippines, and Calcutta, India. It already has editions in Germany, Italy, Ireland, England, Australia, Switzerland, Belgium and Holland, in addition to America.

## ATTORNEY IS CHARGED WITH HIT-AND-RUN

NORRISTOWN, Pa. (AP)—A prominent Norristown attorney has been charged with involuntary manslaughter and failure to stop at the scene of an accident in the traffic death of a man.

Atty. Julian W. Barnard, 62, a former solicitor of Norristown Borough, was arrested at his home Tuesday night by police shortly after Robert Stansbery, 39, of East Norriton Township, was struck and killed by an auto.

The accident occurred on Route 202, two miles north of Norristown. Stansbery was flung over a 3-foot concrete wall.

### JUMPED ON BRIDGE

Edmund Kules, 44, of Ringtown, Schuylkill County, jumped atop a bridge abutment to avoid the car but his right leg was hit. He was admitted to Montgomery Hospital with a broken right ankle.

Police said the two men were walking on Route 202 when the car plowed into them.

Witnesses told police the auto was a green sedan and they traced the car to Barnard.

### RELEASED ON BAIL

Police quoted Barnard as saying his auto hit something but he did not know what it was.

Barnard was released in \$2,500 bail by Magistrate Arthur Horrocks. He also was charged with failure to render assistance and failure to identify himself.

Barnard is a former director of the Montgomery County Bar Association. He has been a member of the Advisory Board of the Montgomery Norristown Bank and Trust Co. and is a former vice president of the Pennsylvania State Boroughs Association.

Richmond outfielder Don Lock hit 35 homers for Binghamton, N. Y., last season. His total set an Eastern League record.

## GIRL DENIED POOL PRIZE

LONDON (AP)—A German girl who came to England 12 weeks ago found today that \$128.396 had slipped from her fingers before she could get hold of the money. Diepold Ute thought she had won the money betting in a soccer pool. An official of the pools firm called on her to hand her the check.

But when he found she was only 18 he told her she couldn't have the money. Under British law, no one under 21 is allowed to bet on the pools.

"What can I do?" asked Miss Ute in tears. "In Germany my parents would have been given the money in trust for me. It was the first time I had ever filled in a coupon, and it came out right. And now this."

Miss Ute works as a maid. A policeman friend showed her how to fill in the coupon. The winner has to forecast eight soccer games ending in ties.

## NAMES GROUP ON WORK RULES

WASHINGTON (AP)—President Eisenhower has formally created a 15-member commission to study disputed work rules and practices in the railroad industry.

Commission members will be named later. Five will represent railroad management, five will be selected by railroad unions and five—including the chairman—will be named by Eisenhower.

The study will start about Jan. 1, with a final report expected about Dec. 1, 1961.

Secretary of Labor James P. Mitchell had announced two weeks ago the labor-management agreement for creation of such a study group.

The railroads want work rules revised. They have accused the unions of featherbedding or make-work practices, claiming this has cost them about \$500 million a year.

## Family Food Facts

THOMAS E. PIPER  
Area Marketing Agent

The small game hunting season is underway in Pennsylvania and game is reported in good supply. This fact is having an influence on retail meat prices, reports Tom Piper, Penn State extension marketing agent, who reminds shoppers to look for several good buys in meats at local food markets this weekend.

The popular hindquarter cuts, sirloin, porterhouse and round steaks promise to lead the parade of values at the meat counter this weekend. Many markets will feature chicken at bargain prices and pork loins will likewise be reasonably priced. Bacon is priced lower while lamb, veal, and smoked pork items appear at slightly higher prices.

Turkey prices are firmer with the approach of the holiday season. Good buys in sea food include bass and rock fish.

### LULL IN PRICES

The produce industry is currently experiencing a lull with prices, demand and quality generally unsettled; this is the result of the seasonal shift from local to more distant growing sections as a source of supply for fresh fruits and vegetables.

Fair to good buys in the South-central area are celery, carrots, onions, cabbage, cauliflower, Brussels sprouts, artichokes, broccoli, sweet potatoes, endive, escarole and Romaine lettuce. Lettuce prices will be lower this week as larger shipments are arriving from the California and Arizona producing areas.

Mushrooms, chestnuts, turnips, cranberries, bunch radishes, pomegranates and avocados are plentifully supplied at bargain prices. Higher prices will be noted on peppers, eggplant, cucumbers, green beans and white potatoes.

Bananas, grapefruit, Emperor grapes and apples are considered good buys in fruit. Seedless grapes are now over and being replaced by the Calmeria, Almeria, and Olivette varieties. The Emperor variety is replacing the sweet Tokay grape which is almost over for this season. Prices are moving lower on good quality oranges.

An upward movement has been resumed in the wholesale price for large size eggs. Medium sizes are more plentifully supplied and will hold the best buy position in most retail stores.

## KING OF IRAN TO BE CROWNED

TEHRAN, Iran (AP) — Queen Farah got out of bed Wednesday for the first time since giving birth to Iran's crown prince Monday. The shah was reported planning his own coronation for next year, since he now has an heir to assure the line of succession to Iran's ancient Peacock Throne.

Informed sources said the monarch, 42, told a Cabinet meeting: "Now that my heir is born, the way is open for my coronation."

This would mean he will mount the jewel-encrusted Peacock Throne for the first time in his 19-year reign. He had refused to do so until he had a male heir who could legally take his place. He divorced two previous wives for not producing one.

"The queen and the baby now are in perfect condition," said Farah's American-trained physician, Jahanshah Saleh. He examined the mother and child at noon Wednesday.

Saleh said the queen, 23, could return to the palace Friday at the earliest.

## EIGHT NAMED FOR BISHOP

PHILADELPHIA (AP) — Eight candidates have been proposed for bishop of the Protestant Episcopal Diocese of Pennsylvania. It has been disclosed.

Names of the candidates were mailed to approximately 700 lay and clerical delegates who will vote here Monday at a special diocesan convention.

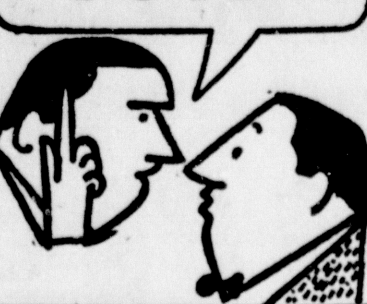

The winner will succeed Bishop Oliver J. Hart, who must retire by July, 1964, when he becomes 72. The eight nominated are:

Suffragan Bishop J. Gillespie Armstrong, 59; the Rev. James R. McColl 3d, 42; the Rev. Dr. Thorne Sparkman, 56; the Rev. Philemon F. Sturges, 57; the Rev. Morris F. Arnold, 45; the Very Rev. Robert F. McGregor, 45; the Very Rev. Paul Moore Jr., and Suffragan Bishop Jonathan G. Sherman.

Rev. Arnold is rector of Christ Church, Cincinnati, Ohio; Rev. McGregor, dean of Trinity Cathedral, Newark, N.J.; Rev. Moore, dean of Christ Cathedral, Indianapolis, and Bishop Sherman from Long Island, N.Y. The others are from the Philadelphia area. Others may be nominated from the convention floor.

Newstead, the home of Lord Byron is near Nottingham, England. The poet's bedroom and sitting room are kept exactly as he left them.

## REPORT RISE IN SAVINGS IN LAST 6 MONTHS

By SAM DAWSON  
AP Business News Analyst

NEW YORK (AP)—Into the debate on what to call the present business situation marches a new term today—moderate downturn.

Its sponsor, the First National City Bank of New York, thinks the argument, now political, over whether the label should be re-adjustment or recession is unimportant since "the slackening is mild."

Two more official reports from government sources this week merely add to the statistical story that all isn't as it once was.

These are the Department of Commerce tally of inventories—off for the third month in a row, almost entirely at the manufacturers' level; and the Federal Reserve Board survey of installment credit which show that in September as in August the monthly increase in this bulwark of the economy was the lowest for any month since November 1955, when the nation was starting its hop back from the 1957-58 recession. (In those days none questioned the term, although its importance was.)

Even with the slowdown since June, the total of on-the-cuff debt has risen to a record \$42.1 billion. This slowdown has been cited as one explanation for the rise in savings in recent months—both in total figures and as a percentage of personal income after taxes.

The inventory cut of \$200 million in manufacturers' stocks after Labor Day could reflect the continued lag in the placing of new orders, but many see most of the inventory drop as due to the declining value of stocks on hand rather than to a smaller physical volume.

When manufacturers start rebuilding stocks they know that the moderate downturn is definitely over, the experts tell us.

Wholesalers' stocks remained unchanged and retailers stock rose \$100 million in the month. Merchants got ready for expected fall and Yuletide sales.

Retail sales softened although they had been expected to rise after Labor Day. Housing started a big dip. Here, too, optimists had counted on a series of steps to ease credit terms and costs and make more investments funds available to start home building back up again.

Between July and September, industrial production fell 2.5 per cent. The slip seems to have continued through October.

But there are many blessings to be counted, too.

Retail sales are still high by almost any yardstick. Consumer spending has increased for many things not found in stores.

The total of corporate profits in the July-September quarter was over the same 1959 period, although many companies and industries showed declines. Profits in general were off from the second quarter of this year, which in turn was down 12 per cent from the record earnings of the 1958 April-June quarter.

Unemployment insurance and pension benefits helped offset the drop in many factory payrolls to keep total personal income high.

## Six-time Slayer Dies In Hospital

ELIZABETH N. J. (AP)—Michael Fekecs, the Hungarian refugee charged with murdering six persons, died in Elizabeth General Hospital early Wednesday after 3½ months in a coma.

Fekecs shot himself in the forehead July 12 as two policemen were closing in on him in nearby Union. He was brought to the hospital that day and never regained consciousness.

A Middlesex County jury indicted Fekecs Sept. 24 on six counts of murder.

He was charged with slaying four persons on the North Brunswick estate of Dr. Francis Clarke and with killing two Franklin Township policemen.

ADVERTISE IN THE TIMES

## MYSTERY MAN SENTENCED TO PRISON AGAIN

WASHINGTON (AP)—Alexander L. Guterman, mystery man of international finance, Wednesday was sentenced to 8 to 24 months in prison for acting illegally as an agent for dictator Rafael Trujillo and the Dominican Republic. He also was fined \$10,000.

The sentence imposed by Judge Jackson is in addition to the New York sentence.

The no-contest plea, while not admitting guilt, means the defendant chooses not to stand trial and that the judge may dispose of the case.

Guterman already is serving a sentence of 4 years and 11 months in the Atlanta Penitentiary on a conviction in New York of conspiring to withhold financial records from the government.

The sentence imposed by Judge Jackson is in addition to the New York sentence.

The no-contest plea, while not admitting guilt, means the defendant chooses not to stand trial and that the judge may dispose of the case.

Guterman and others were accused of accepting \$750,000 from Trujillo and the Dominican Republic to broadcast political propaganda in the guise of news. At the time, early in 1959, Guterman was president of the Mutual Broadcasting System, which since has undergone a complete change in ownership and management.

HAL ROACH FINED  
Hal Roach Jr., who was formerly chairman of the board of Mutual, last May entered a plea of no contest to a charge that he failed to cause Mutual to register as a foreign agent. He was fined \$500 by Judge Jackson, who told Roach he had been "more sinned

against than sinning."

In the New York case, Guterman, 45 years old, was fined \$160,000 in addition to the prison sentence. The U.S. Court of Appeals in New York, however, reduced the fine to \$140,000.

## Fairfield

FAIRFIELD — Norman Wilson, field worker at Zion Lutheran Church, will give the sermon Sunday morning at the church in the absence of Rev. Otto Kroeger who, with his wife and son, Stephen, is visiting friends and relatives in New York.

Weekend visitors at the home of Rev. Kroeger were Miss Katherine Matthews, Buffalo, N. Y., an aunt of the family, and Edward T. Johnson, Mrs. Kroeger's father, from Beaver, N. Y.

The Chicago White Sox will have a working agreement with Houston in 1961.

## CAROL HEISS WILL STAR IN 'SNOW WHITE'

By BOB THOMAS  
AP Movie-TV Writer

HOLLYWOOD (AP)—Folks are feeling nostalgic around Fox Studios these days. Stage 15 is getting iced up again.

Stage 15 is where Sonja Henie swirled and skimmed her way through a series of money-making movies. The rink has been boarded over since the petite Norwegian left the lot in 1943. Now it is being refurbished for a new star who wasn't born when Sonja was in her heyday.

She is Carol Heiss, the pretty New Yorker who won the figure skating championship at last winter's Olympic Games. She has been signed to a movie contract

by 20th Century-Fox. Her first assignment: "Snow White and the Three Stooges," a \$2.5-million version of the familiar fairy tale.

### PREPARATIONS

How is she preparing for it? "I skate in the morning and see Sonja Henie movies in the afternoon," said Carol. "I was only 4½ when she made her last movie so my sole acquaintance with her pictures was on the late, late show on TV. Now I'm seeing them all to pick up pointers on what I should and should not do in the movie."

Her reaction to the films is that her predecessor was clever and talented, but skating has come a long way since.

"She was a sensation in her time; she really made figure skating into a big sport, but the things she did were simple by today's standards," Carol said.

### STILL DAZZLED

Carol is still a little dazzled by her new career. She said for two or three years Spyros Skouras has

been asking her to consider entering films.

"I guess he has had the idea for some time of making the Sonja Henie kind of movie again," she said. "I didn't consider it before because I was shooting for the 1960 Olympics. I had been training for 10 years, and I had to try for the big prize."

After she won the big prize, the Skouras offer was repeated and this time she accepted. "It's nice to be able to tell my father that I can help out in putting my brother and sister through college," she said. "It's nice that I can give my coach a check in return for the many free lessons he gave me."

### LEAVES HOSPITAL

LONDON (AP)—Actress Elizabeth Taylor returned to her hotel penthouse suite today, three days after she was admitted to a hospital suffering from virus fever.

A close friend had said she was feeling better.
